State Supported FTE from Summer Enrollment: Nursing students and pre-nursing students enrolled in undergraduate nursing courses, as well as science-based nursing prerequisites and major requirements are reportable for state support. Nursing courses included in enrollment counts must be requirements for an associate or baccalaureate degree. Science-based nursing prerequisites and major requirements refer to all courses belonging to the physical or biological sciences that are either prerequisites for entry into a nursing program or required courses within a nursing program (i.e. biology, chemistry, nutrition). A record of educational intent or declaration of major must be auditable and stored within the Student Information System. *FTE for courses ending after August 20 are included in the following semester's report.*

Note: Student FTE from undergraduate nursing courses and science-based nursing prerequisites/requirements will be added to the annual average FTE totals from the fall and spring semesters of the subsequent academic year at each institution for the purposes of computing state supported budgets.
