

10-Year Program Review

NEVADA STATE
COLLEGE

DEGREE PROGRAM:

Speech Pathology, Bachelor of Arts

PROGRAM REVIEW CHAIR:

Elizabeth Meyerowitz, Ed.D., Assistant Professor

I. MISSION STATEMENT

A. NSC Mission Statement

At Nevada State College, excellence fosters opportunity. Excellence in teaching leads to innovative, technology-rich learning opportunities that promote the acquisition of interdisciplinary knowledge and skills. Quality, affordable four-year degree programs open the door to career success and enhanced quality of life for a diverse population of students. Our graduates, in turn, foster the greatest opportunity the promise of a stronger community and a better future for all of Nevada.

B. School of Education Mission Statement

- Provide copy of the program mission statement where available.

The mission of Nevada State College School of Education is to prepare highly qualified, culturally responsive professionals. We accomplish this through effective pedagogy, state of the art technology, clinical experiences, scholarly inquiry, and community partnerships. Our graduates will be critical thinkers who contribute to a global, democratic society.

C. Mission Statement Alignment

- Explain the relationship of the program to the College's mission.

Baccalaureate and Post-Baccalaureate Programs

Both the undergraduate and post-baccalaureate tracks in Speech Pathology serve to prepare students for immediate employment in the Nevada public school system and further graduate study. A high-quality program related to national and state standards serves to prepare students for the challenges they will face in today's complex school setting. Taught by highly qualified personnel, including 1 full-time doctoral faculty and a diverse and experienced group of adjuncts, courses are aligned to provide both the theoretical and practical knowledge needed for success.

Career Success

Graduates and post-baccalaureate completers have gone on to employment in the Clark County School District and graduate studies throughout the United States. More than 90% of those completing the program are hired by the local school district for immediate employment. An increasing number of students are electing to postpone employment until they have completed graduate studies, which provides for national certification in Speech Language Pathology.

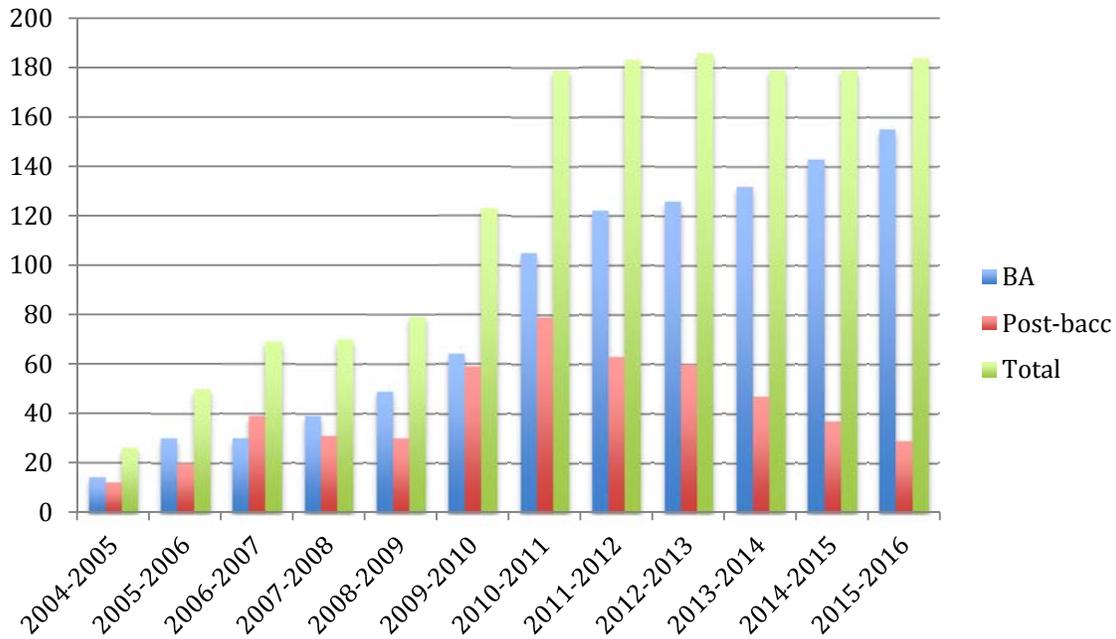

Stronger Community

With an ever-increasing population, Nevada has a significant shortage of certified Speech Language Pathologists (SLPs). A 2016 report by the University of Nevada-Reno Office of Statewide Initiatives listed job postings for SLPs at 671 in 2015. Nevada school districts reported in December 2015 a statewide

shortage of 84 SLPs with an average of 74 over the last nine years. As one of only 2 programs providing education in Speech Pathology, and as the only program targeting school-based personnel, the program at NSC makes a significant contribution to the lives of Nevada citizens. With the addition of approximately 20 new SLPs to the local community every year, NSC has helped to fill the needs of Nevada school districts, particularly within Clark County.

II. INSTITUTIONAL RESEARCH DATA

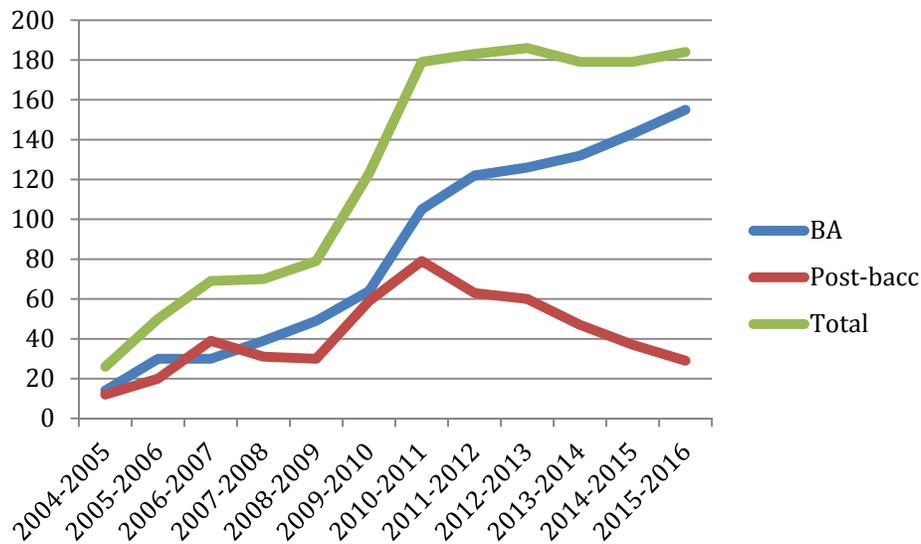

(Figure 1)
Enrollment by Academic Year, Program and Totals

(Table 1)
Enrollment by Academic Year, Program and Totals

Academic Year	Speech Pathology Bachelors	Speech Pathology Post-baccalaureate	Total
2004-2005	14	12	26
2005-2006	30	20	50
2006-2007	30	39	69

Averages		14.18	10.64	74%

As an additional measure of retention we reviewed the number of Pre-Major BA students, who were accepted into the Speech Pathology Program. Data indicate a consistent number of students who successfully complete the requirements and move into the Bachelors program (requirements include: 3.0 GPA and passage of the Praxis CORE).

(Table 7)

B. Success Metrics

- Provide an evaluation of the program's success in recruiting, retaining, and graduating students overall and disaggregated by demographic characteristics (e.g., gender, ethnicity, and transfer/native).

The SLP program currently includes 150 students enrolled as pre-majors, admitted majors and post-baccalaureate students. Given the statewide shortage of Speech/Language Pathologists, this number is significant, as this group of current and upcoming students will serve to address the on-going shortages identified within the state. The NSC Speech Pathology program has grown enrollment even when faced with significant changes and challenges. In 2013, the Clark County School District (CCSD) stopped funding post-baccalaureate students, and offering alternative practicum experiences for those not able to take a leave from their current employment. With almost 2/3 of the SLPs employed in CCSD holding only a Bachelors degree or post-baccalaureate endorsement, the district has a growing need for those with graduate level degrees. At this time the primary employer of our graduates is seeking to find additional graduate level training opportunities and are committed to funding those efforts. This change in policy has had an impact on post-baccalaureate interest and enrollment, but numbers have remained constant as our bachelors level enrollment has grown to account for the difference.

One significant challenge to developing a strong undergraduate program in Southern Nevada is the lack of graduate programing in the state. Currently Nevada is the only state that allows Speech Language Pathologists to work in the public school setting without a Masters degree. Pressure is being brought upon the state from national organizations to change this requirement and students considering careers in Speech Language Pathology have been reticent to complete a program of study that may require a graduate degree when opportunities within the state are severely limited. The addition of a graduate training program in southern Nevada would substantially increase the potential enrollment in the current program.

As indicated in the previous section the SLP program consistently attracts a high percentage of women, averaging over 90%. This is in line with the national average of 96% females in the profession nationally (ASHA, 2014). Minority enrollment significantly exceeds the national average. Minority enrollment at NSC has grown from approximately 23% at the time the program began to a current rate of 54%. At the time of this report the SLP program had a minority enrollment of 44%. With a national average of 20.57% our program is attracting non-traditional students to the field. Given the growing diversity of the client base this is a significant strength for the program.

C. Trends

- Comment on trends identified in the data.

Data on enrolled students indicates a relative plateau in terms of programmatic growth since 2011. Given the loss of funded post-baccalaureate students, this trend is actually believed to be indicative of overall program growth. Although the number of post-baccalaureate students has decreased, the numbers have remained constant indicating growth within the undergraduate major. Given the possible changes to state requirements and the lack of graduate opportunities for our graduates, this increase is considered to be positive. UNR, which offers a graduate training program, records an average of 300 students enrolled in their Survey of Speech Pathology course. This is in contrast to the 30 – 35 enrolled at NSC in any given semester. Should additional graduate opportunities be made available, it is believed that the NSC Speech Pathology program would see a significant increase in enrollment. With the state identifying a severe shortage of SLPs in both the educational and medical environments, an increase in enrollment would serve the state well.

As previously discussed the program is consistent with national trends with respect to gender enrollment.

Current program numbers indicate 93% of students are female, which is consistent with the national average of 95% (ASHA, 2014). Minority enrollment is significantly higher at NSC when compared with national averages. At the time of this review our enrollment reported as 44% racial/ethnic minority. In a 2014 survey of SLP programs across the country, the national average was reported as 20.75% (ASHA, 2014). Given the diversity of the population in Southern Nevada this trend is viewed as positive and in line with the mission of the college.

D. Programmatic Comparisons

- Compare, if possible, with other programs in the institution or with other institutions.

For programmatic comparisons we selected the only other Speech Pathology program in the state of Nevada, housed at the University of Nevada, Reno.

Academic Curriculum

Table 13 lists the number of major courses, the units needed for graduation and the monetary expense associated with each program. For monetary expenses, only tuition was included as many of NSC's students attend on a part-time basis or as post-baccalaureate students. Total amounts reflect units needed to complete the BA degree.

(Table 13)
NSC and UNR Comparison

Program	Nevada State College	University of Nevada, Reno
Number of Major Courses	16 (51 units)	13 course (32 units)
Units needed for BA	120	120
Cost/unit	\$141.75	\$207.25
Total Tuition (not including fees, housing, etc.)	\$17,010.00	\$24,870.00

Table 15 provides a closer look at the required courses for each program.

(Table 14)
NSC and UNR Major Courses

Required Major Courses	
Nevada State College	University of Nevada, Reno
Required courses: <ul style="list-style-type: none"> • Survey of Speech Pathology • Phonetics • Communication Science • Speech and Language Development • Introduction to Audiology • Articulation Disorders • Methods of Clinical Management • Assessment of Communication Disorders • Neurology and Speech Pathology • Articulation Disorders 2 • Rehabilitation of the Hearing 	Required courses: <ul style="list-style-type: none"> • Survey of Speech Pathology • Phonetics • Communication Science • Speech and Language Development • Seminar in Clinical Procedure • Introduction to Audiology • Articulation Disorders • Advanced Audiological Testing • Methods of Clinical Management • Assessment of Communication Disorders • Communication Problems of the Ages

- Handicapped
- Communications and Language Disorders in Children
 - Clinical Practicum
 - Extended Experiences in SLP: Articulation Disorders Lab
 - Extended Experiences in SLP: Communication and Language Disorders Lab
 - Extended Experiences in SLP: Assessment Lab

- Rehabilitation of the Hearing Handicapped
- Communications and Language Disorders in Children

The two most obvious differences between UNR and NSC are the total cost or tuition and the number of courses related to the major. NSC tuition costs are approximately 30% lower than those at UNR. In addition, courses are offered in a hybrid format allowing for more flexibility for students.

It should be noted that NSC's program requires significantly more coursework directly related to the major than UNR. This is due to our commitment to prepare students to work in the public school environment, as well as the provision of a 16-week, 10-unit practicum experience in the public school setting. UNR's program is housed in their School of Medicine and is based on a medical model. Graduates cannot work in the field without completing a Masters degree, so many courses are deferred until after the Bachelors degree is awarded. As the majority of NSC graduates are employed in the public schools within the state, they can work with a BA degree or a post-baccalaureate endorsement from the Nevada Department of Education. To qualify for the appropriate licensure students must complete a 10-unit practicum experience within the school district. This experience is reflected in the additional major courses required at NSC.

Programmatic Strengths

- Accessibility to faculty with extensive experience in the public schools
- Low cost to students relative to competing options
- Provision of 10-unit practicum to meet state requirements for licensure
- Provision of hybrid courses, scheduled to meet needs of working students
- Maintenance of enrollment in light of changes in funded placements
- Emphasis on school-based services, to allow immediate employment and to meet severe shortages within the state

Recommendations

- Maintain low cost tuition
- Increase overall enrollment
- Monitor changes to state requirements
- Provide graduate level training opportunities
- Increase full-time faculty

E. Impact of Growth/Cuts

- Discuss, where applicable, the impact of growth or cuts in program to institution growth. If possible, discuss this impact as it relates to NSC's mission statement. (Information provided by Dr. Dennis Potthoff)

Just prior to the economic crisis of 2008-2012, Nevada State College requested and received permission from NSHE to add a Master's Degree Program in Speech-Language Pathology. The downturn in the economy tabled the motion indefinitely. In 2016, it is time for NSHE to reconfirm the previously granted permission and it is time for NSC to add the program. There are two critical reasons for taking this bold step. First, and foremost, the quality of the preparatory experience would be substantially elevated. The four year program is insufficient to effectively address all ASHA standards and outcomes. Second, the entire State of Nevada is being pressured to require the Master's Degree as the entry level preparation for all Speech-Language services. Nevada is the currently the only state in the United States that does not require Master-level preparation for speech-language pathologists. The fact that Nevada policy allows undergraduate and post-baccalaureate completers to practice ONLY in K-12 school settings constitutes a significant equity/equality issue. Is it acceptable that school-aged children are the only inhabitants of the state that receive services from less qualified speech-language pathologists?

During AY 2015-2016 Nevada State College, led by the School of Education but obtaining strong campus-wide support, initiated several key initiatives that will increase the size and also the quality of the Speech-Language Pathology Program. During AY 2015-2016, NSC approved a search for a full time tenure-track faculty member. The search is in process. A second positive indicator was NSC-support for a proposal that the Speech-Language Pathology program accept an offer to collaborate with the Scottish Rite Foundation in the operation of RiteCare Clinic in the Las Vegas Valley. This proposition successfully gained support from the State Board of Examiners in Audiology and Speech Language Pathology and contract negotiations are proceeding. A positive conclusion is projected. Also in 2015-2016, the School of Education's request that the Master's Degree in Speech Pathology be included in the funding package submitted by NSC to NSHE was granted high priority status.

NSHE has recommend legislative funds be allocated to help cover the startup costs for the program. The fate of this request is TBD in future months. Finally, NSC has put forth a preliminary proposal for construction of a School of Education building. Initial mockups for the proposed building include a speech and hearing clinic. Decisions relative to this proposed new facility are also TBD. While all four of the initiatives summarized in this paragraph are TBD, collectively these events have generated considerable momentum for the Speech-Pathology program. The future is bright.

Without question, the move to a Master's Degree will necessitate additional funding. The proposal submitted to NSHE proposes an initial faculty increase to three tenure track, doctoral faculty. The negotiations with the Scottish Rite Foundation identifies the need for a director for the clinic. While upgrades in personnel and in facilities will increase cost, the current scenario is a very hopeful one; we are optimistic that the proposed MAED program will be supported by the legislature and the Scottish Rite Foundation has declared a very strong commitment to supporting the vast majority of clinic costs. Our Speech-Language Pathology Program has also generated attention from prospective donors.

III. FACULTY INFORMATION

A. Faculty Profiles

- Provide a faculty profile for each full-time faculty member who teaches in the program. This profile will include a summary of qualifications, tenure status, scholarly/creative activity, institutional and professional service, and professional development activities for the previous ten years.

Nevada State College is committed to the idea that excellence fosters opportunity. To support this

commitment we have built a team of exceptional full-time and part-time faculty who are excited by NSC's vision and dedicated to improving the quality of life of our diverse population of students. These faculty are often drawn to NSC by the opportunity to play an important role in the future of Nevada.

The Speech Pathology program currently has one full-time, non-tenure track faculty member. A search is currently underway for an Assistant Professor/Lecturer, which will serve to double the full-time faculty.

*In the section below we provide a more detailed look at our full and part-time faculty members. Full curriculum vitae for each faculty member are listed in the **Appendix A**.*

Elizabeth A. Meyerowitz, Ed.D.

Northern Arizona University

Dr. Elizabeth Meyerowitz is an Assistant Professor at Nevada State College, having joined the faculty for the 2012/2013 academic year. Dr. Meyerowitz received her B.A. in Communicative Disorders from the University of Pacific in 1980, and her M.A. in Speech and Hearing Sciences in 1984 from the University of California, Santa Barbara. She received her M.Ed. in Educational Leadership in 2007. In 2015, she was awarded her Ed.D. in Educational Leadership from Northern Arizona University, where she studied directors of special education programs in the state of Arizona. She has served as a Speech Language Pathologist for over 30 years, working in private and public schools, hospitals, and university based clinics. She is nationally certified through the American Speech Language and Hearing Association, having been a member since 1984.

Since arriving at Nevada State College, Dr. Meyerowitz has taught a variety of required courses, coordinated and supervised student practicums, and served as an advisor to more than 75 students/year. She is responsible for program scheduling, practicum placements and curriculum development. She has served on a variety of school and campus committees, including Faculty Senate, SOE and NSC curriculum committees and the Student of Concern Committee.

Dr. Meyerowitz is committed to preparing students for the realities of working in Nevada. As the only state allowing Bachelors level graduates to work as Speech Pathologists, she believes we must provide hands-on opportunities, focused on the application of therapeutic theories to students in order to prepare them for the realities of working in the public schools. She works closely with administrators and practitioners in the Clark County School District, as well as with the Nevada Speech and Hearing Association and the Nevada Coalition to Address Personnel Shortages in Special Education and Related Services.

Beau England, Aud.D., CCC-A

Dr. England teaches coursework in Audiology. Students benefit from his application of clinical practice to coursework. As part of a private practice in Las Vegas, Dr. England brings theoretical concepts to life with real-world experiences.

Pam Pardee, M.A., CCC-SLP

In conjunction with her school-based practice, Ms. Pardee brings expertise in child speech and language disorders and assessment. Students benefit from her extensive experience in the local school district. The ability to relate course content to clinical experiences provides for increased accessibility for students.

Terri Lacey, M.S., CCC-SLP

Ms. Lacey provides instruction in child speech and language, and practicum. She brings a breadth of

knowledge with expertise in autism, oral-facial anomalies and behavior. As a private practitioner and contractor she brings significant insight to the student experience.

Barbara Forney-Misuraca, M.A., CCC-SLP

Currently working to complete her doctoral studies, Ms. Forney-Misuraca teaches child language and neurology. Her extensive experience in the school environment provides students with a bridge between theory and practice.

Kim Forni, M.A., CCC-SLP

Ms. Forni has worked in a variety of settings, including a university-based clinic. Her wide range of experiences impacts her teaching in phonetics, speech science, language acquisition and articulation. In addition to teaching, Ms. Forni provides supervision to clinical practicum students.

Amy Bourji-Nassar, M.A., CCC-SLP

Ms. Bourji-Nassar serves as an instructor in the areas of speech science and neurology. Her integration of scientific principles and clinical practice are of great benefit to students. She has also served as a clinical supervisor for school-based practicum students.

Related Faculty

As students in the Speech Pathology program are required to complete coursework in education the following School of Education faculty have significant interaction with our students:

Roberta Kaufman, Ed.D.

SPA 203: Introduction to Special Education

EDSP 432: Parent Involvement in Special and General Education

Lori Navarrete, Ph.D.

SPA 203: Introduction to Special Education

EDSP 423: Consultation and Collaboration in Special Education

EDSP 432: Parent Involvement in Special and General Education

Amanda VandeHei, Ph.D.

EDRL 442: Literacy Instruction

Kevin Graziano, Ed.D.

EDU 214: Preparing Teachers to Use Technology

Sarah Bryans-Bongey, Ed.D.

EDU 214: Preparing Teachers to Use Technology

B. Teaching Quality

- Describe indicators of teaching and advising quality (this will include but not be limited to innovative features of the program related to teaching, special awards, teaching accomplishments of the faculty, advising success, advanced degrees earned, workshops attended, and/or papers presented).

The speech pathology program at NSC is guided primarily by two indicators of teaching quality: student course evaluations and annual reviews of instruction conducted by the Dean of the School of Education. Student course evaluations feature quantitative and qualitative components and are completed for every

course offered at NSC. Consequently, these evaluations represent our most robust indicator of teaching quality. Course evaluations ask students to rate instructors in a variety of teaching domains on a scale that ranges from 1 = strongly disagree to 5 = strongly agree. In all cases, a score of 5 represents the best possible performance than an instructor can achieve.

Course Evaluations

Overall, student course evaluations indicate a favorable picture of the quality of the instruction provided to students in the speech pathology program. The overall mean course evaluation rating for all courses offered by the speech pathology program is 4.26 on a 5-point scale. The mean for full-time faculty averaged 4.24 and that for part-time faculty averaged 4.28.

(Table 15)
Evaluation Ratings by Year

2006	2007	2008	2009	2010	2011	2012	2013	2014	2014
4.20	4.27	4.26	4.27	4.22	4.22	4.20	4.35	4.33	4.25

When analyzed based on course type, results were similar:

(Table 16)
Evaluation Ratings by Course Type

	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
Hybrid						4.61	4.84	3.63	4.35	4.33
In-Person	4.22	4.26	4.26	4.32	4.51	4.18	4.41	4.62	4.49	4.60
Online	3.79	4.66	4.26	4.24	4.09	4.24	3.89	4.11	4.09	3.96
Average	4.01	4.46	4.26	4.28	4.30	4.34	4.38	4.12	4.31	4.30

Although student evaluations may be viewed with skepticism by some, extensive research suggests they are a valid indicator of teaching quality and correlate well with other measures of instructional performance (e.g., Kulik, 2001; Renaud & Murray, 2004).

These data are corroborated by other indicators of teaching performance, including rigorous annual reviews and systematic observations of teaching, as described in the following section.

Annual Reviews

The purpose of the annual review process is to carefully assess each full-time instructor's accomplishments in the areas of teaching, service, and scholarship. This is a critical means by which we convey expectations for teaching excellences, while assessing teaching quality and providing specific and constructive feedback for the growth of faculty. Annual reviews provide instructors with valuable information as they seek to offer an exceptional learning environment for students and improve their own practice.

Speech Pathology faculty members are evaluated on an annual calendar cycle. In the Spring semester, faculty submit an annual review portfolio describing and documenting their accomplishments during the previous year. This document includes an update on their progress toward goals established during the previous annual review. New goals are established at each annual review.

In the School of Education, which houses the Speech Pathology program, multiple examples are evaluated as part of the assessment of teaching effectiveness. These are consistent with the SOE Standards of Academic and include the following indicators:

- Course materials
 - Course syllabi
 - Review of online course shell for items such as
 - Lectures, handouts, videos, activities
 - Key performance activities
 - Quizzes, exams and major assignments
- Evidence of teaching innovation and effectiveness
 - An annual observation of instructor's teaching by the Dean
 - Key performance assignments
 - Use of active teaching strategies
- Academic rigor
 - Course grade distributions
 - Use of readings, assignments and exams
- Feedback and mentoring
 - Availability to students outside of classroom hours
 - Student advising
 - Feedback on graded assignments
- Quantitative scores and written comments on student course evaluations
- Progress toward meeting teaching-related goals set during the previous annual review

The Dean of the School of Education completes a thorough and rigorous review of materials submitted as part of the annual review. Given their strong correlation with other indicators of quality, student evaluations are given particular attention. As noted previously, NSC compiles data on individual instructors' student evaluations over time, as well as comparisons to SOE and NSC means. The Dean separates out the instructor's subscores in each of the instructional domains to provide for additional analysis of students' perceptions and to target specific areas for improvement.

Course syllabi and other submitted materials are also reviewed to provide evidence of teaching excellence. The Dean also reviews the instructor's progress toward meeting goals set for the year and the incorporation of suggestions from previous annual reviews.

As part of the annual review process, the Dean observes each instructor annually and completes a formal evaluation of the class session. This document is included as part of the annual review.

The instructor receives a detailed evaluation report summarizing individual indicators of teaching quality, noting areas of particular success and providing specific suggestions for future growth. The Dean and instructor meet to review the report in detail. This meeting focuses on challenges or weaknesses identified during the review and the development of a specific plan of action to address those areas needing improvement. This process provides for the direct mentoring of instructors by the Dean of the SOE, ensuring students in the Speech Pathology program continue to receive exceptional instruction.

Observation of Teaching

Each year, full-time faculty members in the speech pathology program are observed and evaluated by the Dean of the School of Education. For in-person classes, the Dean sits in on a class and for those offered online, a thorough review of the course shell is completed. A course review form is completed based on the observation. The review involves rating multiple measures including: the instructor's interaction with students, the presentation of course concepts and the use of active learning techniques. The observation review form includes individual ratings on each indicator, detailed comments about each domain and recommendations for improvement based on the observation as well as peer-reviewed research on best teaching practices.

After the evaluation form is completed, the Dean and the instructor discuss the observation, including a review of the strengths and weaknesses exhibited and recommendations for improvement. This process is key to the maintenance and improvement of teaching quality throughout the School of Education, as instructors receive detailed and constructive feedback regarding specific elements of their teaching. Feedback focuses on student engagement, the pacing and presentation of course materials and the effectiveness of class activities. The recommendations made by the Dean provide a focus for improvement for instructors, and are written into the annual review to ensure progress in teaching excellence.

Advising

The full-time faculty member in the speech pathology program provides student advising to all students admitted to the speech pathology program, whether at the bachelors or post-baccalaureate level. At the time of this review the sole faculty member was responsible for advising the 75 students admitted to the program. Prior to admittance, students are advised through the Academic Advising Center.

Once admitted to the speech pathology programs students are required to contact the faculty advisor within 45 days of acceptance. The advisor meets with the student to design a degree plan and prepare a course map, outlining the courses to be completed and the semester in which they will be taken. This provides students with a contact within the program, allowing for ongoing mentoring of admitted students.

Together, the full-time advising staff and the faculty advisors provide students with comprehensive academic advising. This ensures all students receive support and guidance related to their success at NSC and personalized mentoring and advice regarding their goals after graduation.

C. Student Evaluations

- Summarize student evaluations of teaching by program

Student course evaluations are completed for all courses offered at NSC (and, by extension, all courses within the speech pathology program). The course evaluation form consists of three open-ended questions that gauge instructional strengths and weaknesses 19 statements about instructional quality to which students indicate their agreement on a scale ranging from 1 = "strongly disagree" to 5 = "strongly agree." All course evaluation items are aligned so that a score of 5 is the best possible score an instructor can achieve. To enhance their utility in guiding instructional endeavors, the 19 items on the evaluation form are consolidated into eight principle domains: 1) Assessment, 2) Clarity, 3) Discussion/Participation, 4) Grade Expectations, 5) Relevance, 6) Feedback, 7) Preparation, and 8) Concern. A brief description of each domain is listed below.

- Assessment - The extent to which the instructor asks questions to gauge student progress and gives relevant, worthwhile assessments (e.g., tests, papers) that contribute to student learning.

- Clarity - Refers to how well the instructor clarifies material in need of elaboration and maintains a clear connection between course content and course objectives.
- Discussion/Participation - Refers to how well the instructor effectively stimulates discussion and encourages students to ask questions and share knowledge, opinions, and experiences.
- Grade Expectations - Refers to how well the instructor provides course/grading information in the syllabus and clarifies course performance expectations.
- Relevance - The extent to which the instructor uses relevant examples to illustrate concepts and shows the relevance of the course to the practical world.
- Feedback - Refers to the quality of feedback provided on assessments and the extent to which the instructor informs students of their progress.
- Preparation - Refers to how well prepared the instructor is for each class session.
- Concern - The extent to which the instructor is available during office hours, shows respect for students, is genuinely interested in student success, and listens carefully to student comments/questions.

The Dean of the School of Education calculates mean ratings for each instructional domain as well as an overall mean rating based on all 19 evaluation items. These means are then used for annual reviews of full-time faculty and general efforts to improve teaching effectiveness.

Taken as a whole, students have awarded very high ratings of instructor effectiveness in speech pathology courses. As shown in **Table 15: Evaluation Ratings by Year** speech pathology courses earned a mean overall rating of 4.26.

2006	2007	2008	2009	2010	2011	2012	2013	2014	2015
4.20	4.27	4.26	4.27	4.22	4.22	4.20	4.35	4.33	4.25

IV. STUDENT INFORMATION AND ASSESSMENT

A. Student Profile

- *Provide a summary student profile including program selectivity (limited entry programs), GPA averages in program courses, and average number of credits to graduation.*

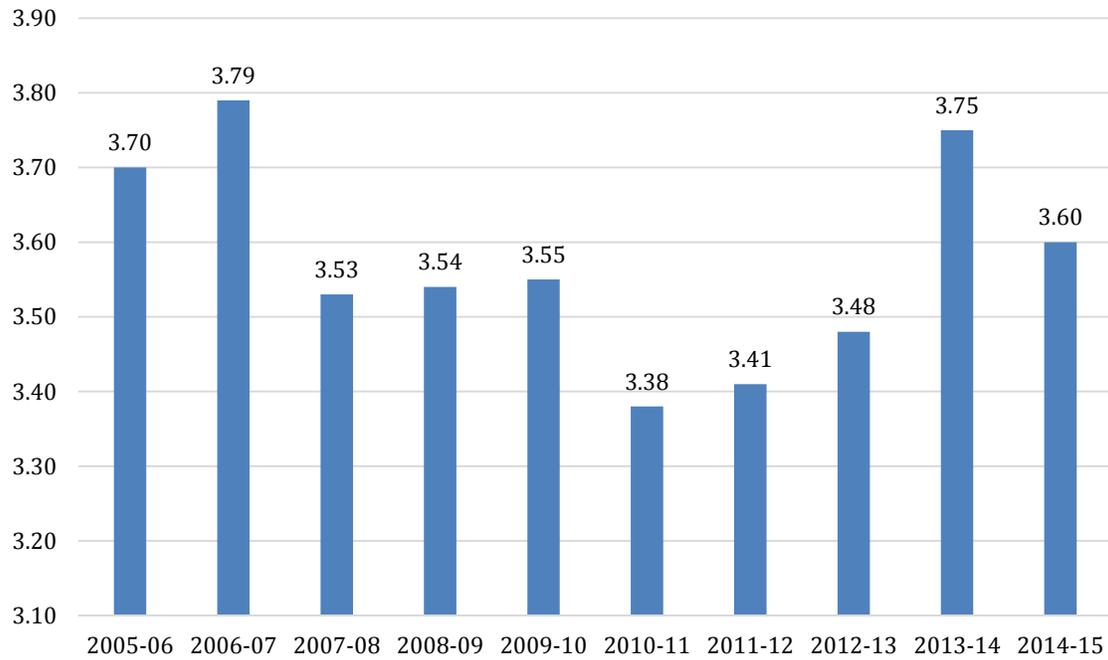

Note: A substantial amount of information about our speech pathology students has been provided in the Institutional Research section of this document. As a consequence, only a brief summary is provided here.

Students within the Speech Pathology are overwhelmingly female (93%) which is consistent with national enrollments in the field. The overall enrollment at NSC is 75% female, which compares to a national average of 57% women.

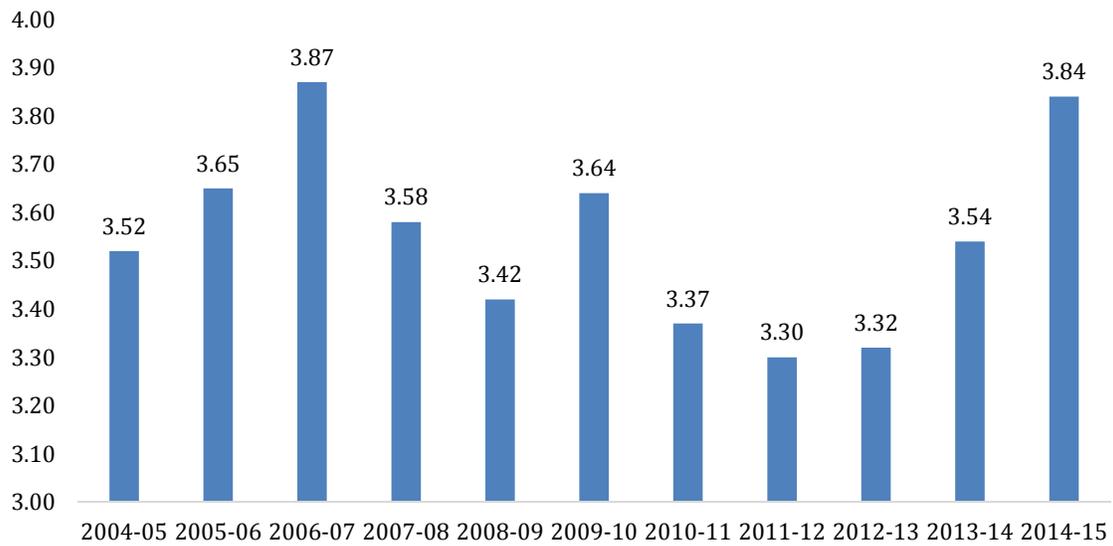

Current numbers indicate that approximately 40% of Speech Pathology students self-report as racially/ethnically diverse, which exceeds the national average in speech programs of approximately 20% (ASHA, 2014). These numbers are reflective of the community from which our students are drawn, as well as the community in which they will serve.

A review of academic metrics reveals an overall mean GPA of 3.57 for speech pathology undergraduate students. Post baccalaureate students had an average GPA of 3.55. With a 3.0 GPA as a requirement for program admission, this data was consistent with expectations.

(Figure 9)
Conferred Mean GPA - Graduates

(Figure 10)
NSC Mean GPA - PB Completers

B. Post-graduate success

- Provide information about program graduate success, appropriate to the discipline. This evidence might include, where possible, the number of graduates employed in areas related to the program or pursuing advanced degrees.

Systematic data on post-graduate experiences has been limited. As NSC grows and as additional personnel are available, additional data will be gathered. The bulk of our current data was collected from the Clark County School District, which serves as the primary employer of our graduates. In all states other than Nevada, SLPs are required to obtain a Masters degree in order to be employed in any setting, thus the goal of completers is acceptance into a graduate level program. Nevada currently allows those with a Bachelors degree to work in the public school setting, if they have completed a supervised practicum and if they are appropriately licensed through the Nevada Department of Education. CCSD hires greater than 90% of those seeking employment at the time of their program completion. Data supplied by CCSD indicates that at the time of this review 199 of our undergraduate and post-baccalaureate students are currently employed as SLPs in the CCSD. Currently 67% of our graduates are working as SLPs for the Clark County School District. Some graduates were previously employed, but have retired or taken other positions within the district. Others have moved out of state or enrolled in graduate degree programs, and one is deceased.

As the entry level requirement in all other states is a Masters degree, and as it is believed that Nevada will eventually adopt this requirement as well, we strongly encourage all students to explore graduate education. With only one graduate level program in the state, options are limited for those unable to leave the state. We have had students accepted to programs including: University of Nevada, Reno; Northern Arizona University; Nova Southeastern University; Iowa State University and Gallaudet University.

A survey of program graduates and post baccalaureate completers was conducted to determine student outcomes, satisfaction, and preparedness. Students were also asked to identify strengths and areas in need of improvement. A total of 25 former students completed the survey, representing undergraduate and post-baccalaureate students completing in 2013, 2014 and 2015. Respondents were evenly distributed between undergraduate and post-baccalaureate students, with the majority reporting as full-time students. Twenty of the respondents (80%) reported being currently employed as a Speech Language Pathologist in the state of Nevada. At the time data was collected 36% were currently enrolled in a Masters degree program and an additional 64% indicated plans to enroll in the future.

When asked about their satisfaction with the SLP program, 100% reported their overall educational experience as good or excellent.

C. Student Learning Outcomes

- Provide a copy of the established student learning outcomes for the program, if they have been reviewed and approved by the department.

Coursework has been carefully constructed to address standards identified as crucial by the American Speech, Language and Hearing Association (ASHA). Eight categories of standards have been developed and include:

- Standard I—Degree
- Standard II—Education Program
- Standard III—Program of Study
- Standard IV—Knowledge Outcomes
- Standard V—Skills Outcomes

Standard VI—Assessment

Standard VII—Speech-Language Pathology Clinical Fellowship

Standard VIII—Maintenance of Certification

Those standards covered under areas IV and V have been aligned with NSC coursework. As the standards developed by ASHA pertain to those completing a Masters level program, not all standards are applicable at the undergraduate level. Those standards used in designing and evaluating coursework fall under the Knowledge and Skills categories.

Knowledge Standards:

- The applicant must have demonstrated knowledge of the biological sciences, physical sciences, statistics, and the social/behavioral sciences.
- The applicant must have demonstrated knowledge of basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. The applicant must have demonstrated the ability to integrate information pertaining to normal and abnormal human development across the life span.
- The applicant must have demonstrated knowledge of communication and swallowing disorders and differences, including the appropriate etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates in the following areas:
 - articulation;
 - fluency;
 - voice and resonance, including respiration and phonation;
 - receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication and paralinguistic communication) in speaking, listening, reading, writing;
 - hearing, including the impact on speech and language;
 - swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology);
 - cognitive aspects of communication (attention, memory, sequencing, problem-solving, executive functioning);
 - social aspects of communication (including challenging behavior, ineffective social skills, and lack of communication opportunities);
 - augmentative and alternative communication modalities.
- For each of the areas specified in Standard IV-C, the applicant must have demonstrated current knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates.
- The applicant must have demonstrated knowledge of standards of ethical conduct.
- The applicant must have demonstrated knowledge of processes used in research and of the integration of research principles into evidence-based clinical practice.
- The applicant must have demonstrated knowledge of contemporary professional issues.
- The applicant must have demonstrated knowledge of entry level and advanced certifications, licensure, and other relevant professional credentials, as well as local, state, and national regulations and policies relevant to professional practice.

Skills Standards:

- The applicant must have demonstrated skills in oral and written or other forms of communication sufficient for entry into professional practice.

- The applicant for certification must have completed a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:
- Evaluation
 - Conduct screening and prevention procedures (including prevention activities).
 - Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.
 - Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.
 - Adapt evaluation procedures to meet client/patient needs.
 - Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.
 - Complete administrative and reporting functions necessary to support evaluation.
 - Refer clients/patients for appropriate services.
- Intervention
 - Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process.
 - Implement intervention plans (involve clients/patients and relevant others in the intervention process).
 - Select or develop and use appropriate materials and instrumentation for prevention and intervention.
 - Measure and evaluate clients'/patients' performance and progress.
 - Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients.
 - Complete administrative and reporting functions necessary to support intervention.
 - Identify and refer clients/patients for services as appropriate.
- Interaction and Personal Qualities
 - Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.
 - Collaborate with other professionals in case management.
 - Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.
- Adhere to the ASHA Code of Ethics and behave professionally.

D. Outcomes Assessment

- Provide evidence of how student learning outcomes are measured. Reviews for accreditation may be used.

The Speech Pathology program follows the methodology utilized in the NSC School of Education for the assessment of student learning outcomes. Student learning outcomes are evaluated by individual instructors in specific courses through the administration of key performance projects, assignments, exams and other evaluative measures (i.e., presentations, case studies). Examples from 4 courses are provided below:

Key Performance Projects include:

SPA 441: Student portfolio of clinical resources, assessments, and evidence based treatment for individuals with communication disorders will be required. Students are expected to include a minimum of one of each of the following:

- Speech-language assessment report
- Present Levels of Academic Achievement and Functional Performance, goals, and benchmarks
- Articulation/phonology therapy plan
- Push-in group language therapy plan
- Simulated therapy schedule and rationale report
- Therapy session reflection paper
- Practicum reflection paper
- Evidence of family-based interactions
 - MDT reports
 - Parent interviews
 - Homework materials
 - Communications with parents (e.g. progress reports, therapy data)
- Reflection on the use of educational technology as it relates to the practice of Speech/Language Pathology
- List of professional resources/materials (could include reference texts, websites, etc.)
- Sample data sheets

SPA 362: Students will develop a presentation on a condition that results in hearing loss, and will develop simulated professional report for client with the condition.

- Working within assigned groups, the development of a short presentation (17-20 slides in PowerPoint, Prezi, Keynote or other display format) will be required, and will contain an informative and engaging review of a topic related to course content. Each assignment group will address a differing topic. Topics would include a disorder or syndrome associated with hearing impairment, the battery of assessment measures, the extent and impact of hearing loss, standard remediation strategies, and any other information relevant to the topic. A suitable topic may be chosen from a list provided, and must receive prior approval from the instructor by date specified in the schedule. Presentation will be submitted online for review and grading via the WebCampus Assignment Link, and all submissions will be presented in class and posted by the instructor in WebCampus for all students to view. Early submission of the presentation is welcomed and encouraged, but is otherwise required by the specified due date. A scoring rubric for the PowerPoint presentation will be provided.
- Based upon the topic for the assignment group, each individual student will develop a simulated case history, and two audiograms (initial and follow-up) for a patient affected by the issue examined in the group's PowerPoint presentation. Follow-up audiogram may either indicate a resolution or deterioration of the patient's hearing status, based upon the nature of the topic covered. Each student, incorporating both the case history and the results of audiological evaluation, will submit two written professional reports. The first report will present initial findings, and the second will incorporate updated case information and follow-up assessment results. A scoring rubric for the reports will be provided.

SPA 401: Given a written transcript students will evaluate a young student who stutters. Key components of the key performance include:

- Completion of the SSI-4 protocol
- Development of an evaluation report
- Completion of the PLAAFP section on an IEP
- Development of appropriate goals and objectives
- Design of 2 session plans addressing the goals using established protocols

- Provision of a written treatment plan that includes information on the theoretical framework utilized, why it was chosen and how it relates to the provision of treatment

SPA 400: Professional Report

- A case study including observations, language samples, standardized test scores, RTI data, and/or curriculum expectations will be given to each student. Analysis of results including a written report is required. Specific information and grading rubric for each required element will be provided by the instructor in the weeks the assignments are given.
 - *Background Information (Assignment #2)*
 - A written summary of background information based on results of clinical interview(s) is required.
 - *Test Description, Score Table, and Statistical Analysis (Assignment #3)*
 - A single paragraph consisting of a brief description of the test, a table indicating standardized scores, and a statement explaining the standard scores and percentile ranks for given test protocols is required. Students will complete 3 of these based on given case study.
 - *Strengths/Weaknesses Analysis Paragraph(s) (Assignment #7)*
 - Written analysis consisting of a statement of a test subject's strength(s), weaknesses, and supporting examples is required for each of 3 protocols given in case study. Specific information and grading rubric will be provided by the instructor in the weeks the assignments are given.
 - *Speech Sound System Analysis (Assignment #8)*
 - Students will analyze the HAPP provided in the case study and write the corresponding report section to include oral mechanism evaluation, test description of the HAPP, table of scores, and analysis of processes/patterns with examples, stimulability, and intelligibility.
 - *Summary, Conclusions, and Recommendations (Assignment #11)*
 - Students will provide written demonstrate analyses and interpretation summaries for each area of need assessed (based on given case study).
 - *Goals and Objectives/Benchmarks (Assignment #9)*
 - Students will include 1 Goal and 2 objectives for each area of need. Goals and objectives must reflect an appropriate suggested treatment plan based on interpretation/analyses of case study results.
 - *Completed Report and Reflection on Evidence Based Practice (Assignment #13)*
 - Students will submit a completed Evaluation Report, including all sections from previous assignments within the template provided. Students will also include a one page analysis of how each of the completed components work together to reflect the use of evidence-based practice.

E. Assessing Academic Quality

- Provide evidence of how academic quality is assessed and maintained in all modes of delivery.

Maintaining high academic quality is of utmost importance and viewed as our primary responsibility as a teaching and student-centered college. We utilize a rigorous, multi-faceted approach in the determination of academic quality and outcomes. The methods utilized include:

- Outcomes assessment
- Faculty development
- Annual evaluations

- Part-time instructor observations

Outcomes Assessment

In order to develop and maintain the academic quality of our program across formats and instructors the following strategies have been employed to ensure quality and consistency.

1. Comprehensive outcome implementation - the syllabus template used across the School of Education establishes a clear-link between national standards and individual course objectives. A Key Performance Project (typically, a culminating assignment) has been established for each course. These KPPs are aligned to student outcomes for each course. Examples are provided in the previous section.
2. Student engagement - instructors are encouraged/expected to utilize strategies that have been shown in the literature, as well as in our own data, to foster greater levels of engagement and motivation to succeed. These strategies include using course knowledge and skills to address clinical issues (Frey & Fisher, 2010; Palmer, 2007) and challenging students with high academic standards (e.g., Weinstein, 2010). Our goal is the development of mastery of course outcomes.
3. Evaluation and feedback - research supports the use of substantive feedback in improving student success (Spangle, Hodne, & Schierling, 2002; Tricker et al., 2001). Instructors are encouraged to provide specific feedback on student submissions to guide students toward mastery. Timely feedback (within one week of submission) is strongly encouraged.

Faculty Development

Academic quality is maintained through a variety of programs geared toward the development of faculty skills. Annually, NSC provides professional development events designed to provide faculty with ideas and techniques for improving teaching and scholarship. Campus-wide and SOE events are also scheduled and have included presentations from the Office of Informational Technology, the department of Institutional Research and the Disability Resource Center, as well as brown-bag lunches for discussion and reading/study groups on selected topics.

Travel funds are available and have been utilized for attendance at the following conferences/trainings:

- American Speech, Language and Hearing Association Convention
- Council of Academic Programs in Communication Sciences and Disorders
- Central Institute for the Deaf: SPICE and SPICE for Life training

Annual Evaluations

Note: a thorough description of the annual evaluation process is provided in sections III.B

V. CURRICULUM INFORMATION

A. Curricular Strengths & Weaknesses

- Provide evidence of curricular strength or weakness. This may include, but is not limited to, pass rates on certification or licensure exams, accreditation or other external review reports, results of exit exams, awards and honors, explanations of course rotations and sequencing, results of satisfaction surveys.

The strengths and weaknesses of the speech pathology program are evaluated using feedback from employers, national assessment pass rates, student course evaluations, and formal and informal insights

provided by faculty members. We strive to provide a curriculum in line with the national standards outlined by the American Speech Language and Hearing Association, and to prepare students for licensure according to guidelines established by the Nevada Department of Education, as well as for graduate study in Speech Language Pathology.

Key strengths and weaknesses are summarized below:

(Table 17)
Key Strengths and Weaknesses

Strengths	Relevant Evidence
1. Disciplinary and teaching expertise of full- and part-time faculty	1. Mean student course evaluation ratings which exceeded 4.20 on a 5.0 score for all courses for which data was available
2. Application of principles and theories to real-world situations	2. Students have a pass rate for Praxis 5881 of greater than 90% on first attempt; feedback from CCSD practicum supervisors and coordinators indicate strong skills during practicum and at the beginning of employment.
3. Robust practicum experience have contributed to student employment and graduate school success.	3. NSC is the only baccalaureate institution in Nevada providing a school-based practicum experience. Students acquire in excess of 100 hours working directly with students in need of speech/language services.
4. Blend of theory and practice	4. The majority of courses offered within the program focus on applying theory to practice. Key Performance Projects require students to apply principles learned to hypothetical situations, similar to those that will be encountered during both the practicum experience and employment.
5. Learning outcomes that reflect current standards of the profession	5. Learning outcomes mirror the national standards of the profession.
6. Use of current technologies to support curricular concepts.	6. We have added video observations and patient simulations to selected courses to better prepare students to integrate concepts to practice.
Weaknesses	Relevant Evidence
1. Inadequate coverage of material related to voice, neurogenic disorders and swallowing	1. As our program seeks to prepare students to work in the public school setting, coursework focuses almost exclusively on topics of relevance to that specific population. A review of national standards indicates our students need additional preparation in issues relevant to working with adults.

2. Alignment of course concepts has not been well constructed.	2. A recent review of the curriculum has indicated that concepts have not been sufficiently mapped to provide for the most efficient learning experience for students.
3. Inadequate alignment of course and program outcomes with class components (e.g., readings, lectures, assessments)	3. In general, instructors have constructed meaningful and measurable learning outcomes. However, a conspicuous link between these outcomes and course elements such as readings, assignments and projects has not been made.

B. Program Improvement

- Explain how assessment results are used in the program for improvement.

As the first review of the Speech Pathology program, assessment results have not yet been used for program improvement. Information uncovered as a process of this review suggests a number of key steps to be taken prior to the next review. These would include:

1. alignment of course outcomes with course activities
2. modification of curriculum to develop a track for those interested in working in environments other than the public schools
3. ongoing use of resources, personnel and clinical experiences to provide high quality educational experiences

VI. INFORMATION, TECHNOLOGY, SPACE AND EQUIPMENT RESOURCES

A. Library Resources

- Evaluate library resources for the program.

The Marydean Martin Library, housed in the Rogers Student Center on the NSC campus is the first cloud-based library in the state of Nevada. It provides access to over 1.4 million ebook titles and almost 2 million print volumes available through selected partner libraries in Southern Nevada.

The NSC library supports the Speech Pathology program by providing electronic resources, bibliographic instruction, reference assistance, and an environment conducive to learning. At the time of this review, the NSC library reports 2,956 books and 268 journals related to speech pathology. A search of the library website indicates access to over 40,000 resources available in English.

We have focused on maintaining a robust assortment of relevant electronic holdings, including both eBooks and journal databases. Access to journals is key to the success of students with respect to accessibility of resources. The NSC library provides access to virtually all of the key databases in the field. Relevant databases include: JSTOR (Health and General Sciences, Life Sciences and Arts & Sciences), Sage Journals, PsychArticles, MEDLINE, Academic Search and ProQuest. As the bulk of current information in the field of speech language pathology is transmitted via peer-reviewed journals, the availability of so many relevant resources provides NSC students with access to the most current research. The availability of ebooks and physical books, through partner libraries, provides students with access to classic works in the field, as well as a multitude of therapeutic materials. Both students and faculty can easily obtain information needed to

inform teaching, complete class projects, and pursue research opportunities.

As the availability of resources is inconsequential if students are not able to locate and evaluate their usefulness, NSC's library has focused on providing quality instruction sessions and accessible online tutorials, raising the overall level of information literacy across the campus. Faculty are able to schedule bibliographic instruction sessions for individual classes, as well as sessions on technology related to research. Library staff are readily available to students and faculty, allowing for support in identifying relevant information and resources, designing research and answering specific questions related to the field of speech pathology.

With the move to the new campus, materials previously housed in the Teaching and Learning Center, have been moved to the Speech Pathology Lab in the NSE building. Materials include assessments, treatment manuals and therapeutic materials. The resource list (**Appendix B**) identifies more than 300 items available to students and faculty for classroom activities and practicum. Items are available for check out by students, faculty and clinical educators. New assessments and materials are added throughout the academic year.

B. Computer Resources

- Evaluate computer access and adequacy of software programs for program faculty and students, if appropriate.

Speech Pathology students at NSC regularly use computers throughout their program of study. Students utilize computers to: access course materials, interact with peers and faculty, transcribe/analyze speech and language samples, score assessments, write therapeutic reports and plans, create documents and analyze data. In collaboration with the Office of Information Technology, we have worked to ensure that students and faculty have access to resources, a user-friendly experience and robust technical support.

Accessible computer workstations are available across the NSC campus. In total, students and faculty have access to more than 50 computer workstations, including 10 in the SOE Media Center.

Both students and faculty benefit from NSC's "SMART" classrooms, which feature computer workstations, projectors, speakers, document cameras, Smartboard technologies and interactive student response systems ("iClickers"). Every classroom used by the NSC School of Education is outfitted with the "SMART" package, allowing instructors to move between classrooms with ease. Faculty benefit from networked printers within the School of Education and the ability to reserve laptops, tablets and Smart Pens for academic and therapeutic use. Adjunct instructors have access to computer workstation-equipped office space within the School of Education.

Software, network and user interface resources are equally robust. High-speed wireless access is available across campus. A user-friendly student and faculty experience is supported by a single portal, which provides access to a full array of electronic resources (e.g., Canvas, email, library resources). In addition, the PeopleSoft system enables a variety of self-service functions (e.g., degree audits), and all students and faculty are provided with a sizeable amount of network storage that can be accessed on campus or remotely. Software accessibility includes the full Microsoft Office suite, SPSS, SALT and PepperFont.

Technical support services provide students and faculty with resources and work quickly to resolve technical issues. On-campus support is available during typical business hours, as is a 24-7 helpdesk to address issues with Canvas. Personnel from the Office of Information Technology are readily available to both faculty and students. The Office of Information Technology regularly assesses student and faculty perceptions of the

quality of these support services and adjusts accordingly.

C. Facilities

- Evaluate the adequacy and currency of facilities including utilization rates of current facilities, quality of facilities maintenance, and condition of departmental space.

The move to the new campus in the summer of 2015 provides students and faculty with exceptional facilities. The School of Education, including the Speech Pathology program is housed on the third floor of the Nursing, Science and Education Building. Students and faculty are able to make use of the previously described advanced technological resources within each classroom. An onsite media center is available providing computer access and relevant materials. Additional technology, including iPads and Smart Pens are available for use in the instructional setting. Faculty offices are found on the same floor as the classrooms, allowing students easy access to instructors and advisors.

Of significant interest is the addition of a clinical relationship with the Scottish Rite Foundation of Southern Arizona. At the time of this review the School of Education was working to develop the necessary legal documents to provide for a cooperative clinic in downtown Las Vegas. This clinical space would be used to provide additional training opportunities for students in the Speech Pathology program, prior to their full-time practicum experience. The cost of this clinic will be covered by the Scottish Rite.

D. Instructional Equipment

- Evaluate the adequacy and currency of instructional equipment to achieve the objectives of the program.

The School of Education prioritizes the provision of state-of-the-art resources to enhance the learning environment for students. Our “SMART” classrooms feature a computing workstation, a projector, speakers, a document camera, Smartboard technologies, and interactive student response systems (“iClickers”). In addition, a lecture-capture system was recently installed in select rooms in the NSE building. The system allows faculty to record themselves in the classroom. Videos can then be edited and posted online as video lectures in online or hybrid courses.

Faculty development sessions, emails and instructional videos from the Dean and the Office of Instructional Technology inform faculty of available resources. All adjunct faculty have access to shared offices which they can use for office hours or for preparation of instructional materials. Office computers can be equipped with programs such as Jing and Camtasia for creation and editing of video lectures. A limited number of campus laptops are also available for checkout as needed. Departmental funds are available to cover specific instructional equipment or materials for courses at an instructor’s request.

Overall, speech pathology faculty have access to extremely high-quality equipment for developing their courses, and SOE remains dedicated to ensuring that our faculty have the resources needed to create innovative, engaging courses in online, in-person and hybrid formats.

VII. EXTERNAL FACTORS

A. Enrollment Trends

- Describe enrollment trends.

The Speech Pathology program has grown from an initial enrollment of 26 in the 2004/2005 school year, to the current enrollment of 184. A closer look at the enrollment revealed that for the first 6 years, undergraduate and post-baccalaureate enrollments were almost equal. More recently undergraduate enrollment has grown at a much greater rate, and post-baccalaureate enrollment has dropped, so that post-baccalaureate students currently represent less than 20% of enrolled students. Women continue to be the bulk of enrolled students. Minority enrollment has increased from 23% to 44% over the course of the program.

B. Demand for Graduates & Barriers to Success

- Evaluate the demand for program graduates. Identify barriers to success for graduates involving course offerings, scheduling, and/or staffing.

Our graduates and those completing our post-baccalaureate program are being hired at a rate that exceeds 95%. Administrators at CCSO tell us that our graduates are well prepared and that they will continue to hire them without reservation. The few graduates who have not accepted immediate employment have gone on to graduate schools, moved to other states or taken time due to family issues.

Barriers to student success can be divided into internal and external factors.

Internal factors include:

- Full-time clinical practicum.
 - Students must complete a 16-week practicum in the public school setting in order to meet state requirements for licensure. This requires students be present during all school hours, which makes it difficult for students to maintain outside employment. The majority of our students are employed throughout their program and the inability to work has resulted in a number of students being unable to complete all program requirements. As many of our students are employed by the Clark County School District, we have attempted to develop a summer practicum option, using placements in year round programs. This would allow those employed as teachers, instructional aides, etc. to complete the practicum experience when traditional schools are not in session. At this time, we have been unsuccessful in developing this program, due to the limited number of year round schools and the shorter time period available.
 - Lack of science based courses
 - In order to prepare students for immediate employment our program has had to make difficult decisions regarding what courses to include and which to exclude. We focus on those courses that will best prepare students to assess and treat students in the public school setting. This has resulted in a lack of courses focused on speech and hearing science, as well as courses dealing with adult issues. Those students wanting to apply to graduate school would benefit from the addition of certain courses.
- Limited clinical opportunities
 - To be eligible for national certification as a Speech Language Pathologist through the American Speech, Language and Hearing Association, students must acquire a minimum of 400 clinical contact hours across a minimum of 3 placements. At this time, NSC students complete only one practicum experience. Although this is a significant and robust clinical experience resulting in the accumulation of more than 100 clinical hours, it is limited in terms of scope. The addition of a clinical partnership with the Scottish Rite Foundation of Southern Arizona will be a significant addition to the NSC program.

External factors include:

- Lack of graduate programs
 - Our students have expressed a strong interest in attending graduate school, but the limited opportunities across the state and nation prevent this for all but a small percentage. Nevada currently has only one graduate program in Speech Language Pathology, and it is a full-time, residential program. A small number of online programs are available nationally, but the cost is prohibitive and most do not offer part time attendance. Our community would be well served by the addition of a graduate program designed for those working as SLPs under the guidelines of the Nevada Department of Education.

C. Student Satisfaction

- Provide evidence of student satisfaction with the program if possible.
 *This may include surveys of current and alumni students.

A survey of program graduates and completers was developed for purposes of this review. Those identified as having received a degree or as having completed the post-baccalaureate requirements for licensure were contacted by email and asked to complete a short survey designed via Qualtrics. Twenty-five responses were collected and results indicated that 80% of respondents were currently employed as SLPS in the Clark County School District. Currently 36% of respondents were enrolled in a graduate level program and the additional 64% indicated they intended to acquire a Masters degree in the future.

All 25 respondents indicated that they believed the quality of their educational program was either good (36%) or excellent (64%) with none reporting a fair or poor experience. Similar results were found with respect to the practicum experience provided through NSC (84% excellent, 16% good).

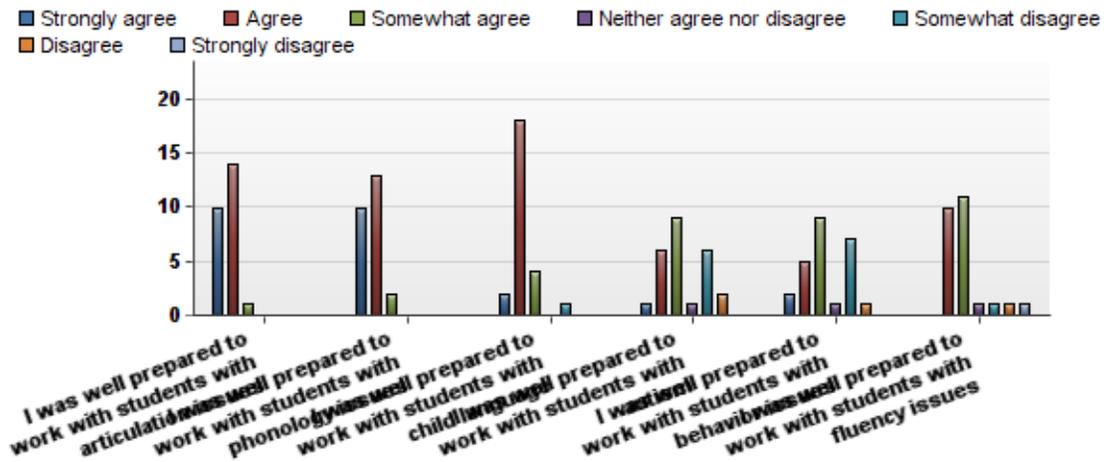

**(Table 18)
Evaluation of Overall Educational Experience**

#	Answer		Response	%
1	Excellent		16	64%
2	Good		9	36%
3	Fair		0	0%
4	Poor		0	0%
	Total		25	100%

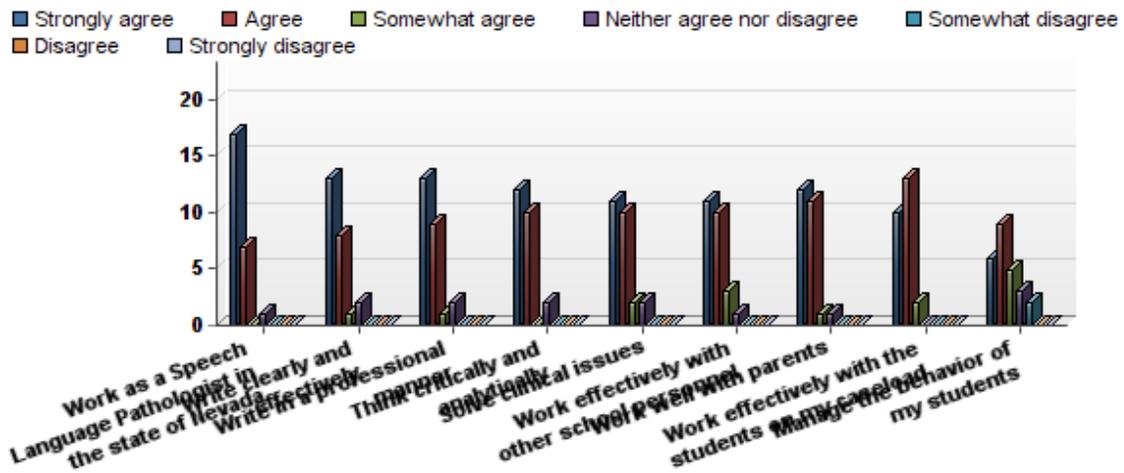

**(Table 19)
Evaluation of Clinical Practicum Experience**

#	Answer		Response	%
1	Excellent		21	84%
2	Good		3	12%
3	Fair		1	4%
4	Poor		0	0%
	Total		25	100%

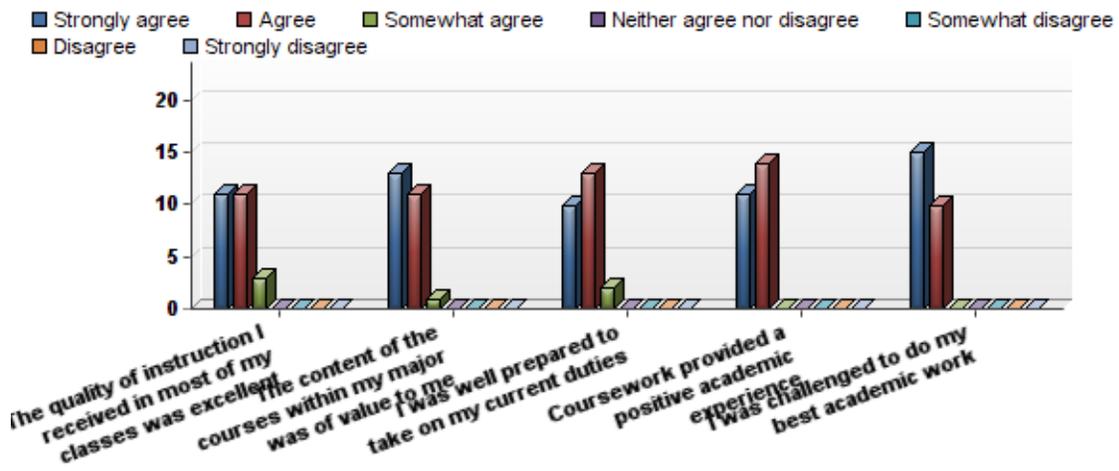

(Figure 11)
Preparedness by Disorder

(Figure 12)
Preparedness for Work in Schools

(Figure 13)
Quality of Program

Strengths and Needs

As a final component of the survey, former students were asked to identify both programmatic strengths and ideas for improvement. Responses were analyzed to determine the presence of significant trends.

Strengths

- Small class sizes
- Responsive and knowledgeable faculty
- Flexible class scheduling
- School-based practicum experience
- Focus on acquisition of skills needed to work in school environment
- Skill based coursework

Suggestions for improvement

- Increase coursework on behavior management, autism
- Provide training on PECS
- Broaden clinical experiences
- Add a masters program

D. Unique Elements

- Discuss the unique elements of the program. Discuss the special advantages and/or challenges this program experiences.

The NSC program in Speech Pathology is unique in many aspects. We are the only program in the nation whose primary goal is the preparation of school-based SLPs, eligible for licensure under the Nevada Department of Education. As graduates can be licensed to work in the school districts of Nevada without a graduate degree, the challenge to provide adequate training for working with such a vulnerable population is evident. We have created a curriculum focused on integrating theory with practice, and combined it with a 16-week, full-time practicum experience to best prepare our students. In conducting a program comparison with UNR, our focus on school-aged students and the early integration of treatment principles into those courses usually focused on theory is evident. The addition of lab experiences to three of our courses is additional evidence of our focus on treatment issues. Another unique aspect of our program is the option to complete it as a part-time student. With the exception of the practicum, students can complete the program at their own pace, allowing working students the opportunity to further their career options. We believe that these unique elements, complemented by high quality faculty and instructional technology and resources, put the Speech Pathology program at NSC in good standing when compared with competing programs in the state.

Our ongoing challenges are the difficulty in adequately preparing students for a career that requires a graduate degree in all other states and for all populations other than school-aged children in Nevada. The possibility of changing state requirements has discouraged some students from entering into the program and the need for a full-time practicum makes the program difficult for those who need to provide ongoing income while going to school.

A lack of faculty lines is another key issue. At the time of the evaluation, the program was allocated one tenure track line and one lecturer line. Adjunct faculty is utilized to round out the faculty serving this program. This places a large responsibility on limited faculty and makes continued growth difficult.

VIII. INFORMATION PROVIDED BY THE DEAN

A. Accreditation Status

- Address the accreditation status of the program, where applicable.

Nevada State College is regionally accredited by the Northwest Commission on Colleges and Universities (NWCCU). NWCCU is one of six regional accreditors involved in higher education accreditation in the United States. The NSC Bachelor of Arts: Speech Pathology is accredited by the Nevada Department of Education. The American Speech-Language-Hearing Association's credentialing requirements provide the framework for the BA: Speech Pathology program.

B. Resource Reallocation

- If applicable, discuss the potential for a reallocation of resources to meet program needs. This might include the need for additional faculty, space, equipment, budget, etc. Discuss the availability of these resources in program Division.

Just prior to the economic crisis of 2008-2012, Nevada State College requested and received permission from NSHE to add a Master's Degree Program in Speech-Language Pathology. The downturn in the economy tabled the motion indefinitely. In 2016, it is time for NSHE to reconfirm the previously granted permission and it is time for NSC to add the program. There are two critical reasons for taking this bold step. First, and foremost, the quality of the preparatory experience would be substantially elevated. The four year program is insufficient to effectively address all ASHA standards and outcomes. Second, the entire State of Nevada is being pressured to require the Master's Degree as the entry level preparation for all Speech-Language services. Nevada is the currently the only state in the United States that does not require Master-level preparation for speech-language pathologists. The fact that Nevada policy allows undergraduate and post-baccalaureate completers to practice ONLY in K-12 school settings constitutes a significant equity/equality issue. Is it acceptable that school-aged children are the only inhabitants of the state that receive services from less qualified speech-language pathologists?

During AY 2015-2016 Nevada State College, led by the School of Education but obtaining strong campus-wide support, initiated several key initiatives that will increase the size and also the quality of the Speech-Language Pathology Program. During AY 2015-2016, NSC approved a search for a full time tenure-track faculty member. The search is in process. A second positive indicator was NSC-support for a proposal that the Speech-Language Pathology program accept an offer to collaborate with the Scottish Rite Foundation in the operation of RiteCare Clinic in the Las Vegas Valley. This proposition successfully gained support from the State Board of Examiners in Audiology and Speech Language Pathology and contract negotiations are proceeding. A positive conclusion is projected. Also in 2015-2016, the School of Education's request that the Master's Degree in Speech Pathology be included in the funding package submitted by NSC to NSHE was granted high priority status.

NSHE has recommend legislative funds be allocated to help cover the startup costs for the program. The fate of this request is TBD in future months. Finally, NSC has put forth a preliminary proposal for construction of a School of Education building. Initial mockups for the proposed building include a speech and hearing clinic. Decisions relative to this proposed new facility are also TBD. While all four of the initiatives summarized in this paragraph are TBD, collectively these events have generated considerable momentum for the Speech-Pathology program. The future is bright.

Without question, the move to a Master's Degree will necessitate additional funding. The proposal submitted to NSHE proposes an initial faculty increase to three tenure track, doctoral faculty. The negotiations with the

Scottish Rite Foundation identifies the need for a director for the clinic. While upgrades in personnel and in facilities will increase cost, the current scenario is a very hopeful one; we are optimistic that the proposed MAED program will be supported by the legislature and the Scottish Rite Foundation has declared a very strong commitment to supporting the vast majority of clinic costs. Our Speech-Language Pathology Program has also generated attention from prospective donors.

C. Mission

- Comment on the mission of the division, department, and program.

The mission of Nevada State College School of Education is to prepare highly qualified, culturally responsive professionals. We accomplish this through effective pedagogy, state of the art technology, clinical experiences, scholarly inquiry, and community partnerships. Our graduates will be critical thinkers who contribute to a global, democratic society.

The Speech-Language Pathology Program is a perfect fit with the SOE Mission Statement. Over the past year, concrete steps to more fully integrate teacher education and speech-pathology programming have occurred. Specifically, the teacher education and speech-language pathology budgets will be collapsed into a unified set of SOE accounts effective July 1, 2016. The SOE has also worked across these two key program areas in the conceptualization of a five year strategic plan.

Like all other parts of the School of Education programming, the Speech-Language Pathology program works with significant numbers of Baccalaureate level students and Post-Baccalaureate level students. Collectively, these two groups of students have continued to generate robust numbers of students. The job opportunity for program completers, at both the baccalaureate and post-baccalaureate levels, is unusually positive; both the undergraduate and post-baccalaureate tracks in Speech Pathology serve to prepare students for immediate employment in the Nevada public school system and/or further graduate study. A high-quality program related to national and state standards serves to prepare students for the challenges they will face in today's complex school setting. Taught by highly qualified personnel, including one full-time doctoral prepared faculty member and a diverse and experienced group of part time instructors, courses are aligned to provide both the theoretical and practical knowledge needed for success.

D. Institutional Research Data

- Comment on or clarify the data and information supplied by the Office of Institutional Research.

The data provided by the Office of Institutional Research is a central component of this 10 year review. Generally, the data is very clear and illuminating. The opportunity to collect, review, and reflect program-specific data was very helpful and crucial as the SOE enthusiastically moves forward with plans to elevate the size and quality of the Speech-Language Pathology Program. The Office of IR was helpful and prompt in responding to SOE requests for information relative to the Speech-Language Pathology program. A few key observations/elaborated explanations are offered.

First, the enrollment level for the past 3-4 years, while very solid, has been flat. The lack of growth, given events in the surrounding context, is arguably misleading. Approximately 4 years ago, the Clark County School District made a decision to terminate financial support for CCSD employees who agreed to return to college to study speech-language pathology. This decision had an immediate and devastating impact on post-baccalaureate program enrollments. Thankfully, the number of baccalaureate degree-seeking speech-language pathology majors increased sufficiently to maintain the total number of students in the program. The SOE has also engaged in brainstorming relative to strategies for building back up the post-baccalaureate

enrollment. The potential for making this happen is very realistic given the total capacity of graduate level SLP programs, both within and beyond the State of Nevada, is far smaller than the number of SLP majors who are earning undergraduate degrees.

Second, in approximately the same year, the Educational Testing Service (ETS) rolled out a new examination. The new exam, the PRAXIS CORE, replaced the Praxis I examination. The transition to this new exam has been painful for NSC – and for many other institutions around the State and United States. The pass rate for our pre-education and pre-speech pathology majors has significantly declined. The SOE, in 2015-2016, has implemented a series of Praxis Core Support Initiatives. The SOE will be carefully monitoring the impact of these initiatives – including study of the impact on enrollment in the Speech-Language Pathology Program. The SOE is confident that the action steps taken to support pre-speech pathology and pre-education majors will generate improved pass rates within the next 12 months.

Third, the process of completing this 10 year review was enormously beneficial with regard to identification of gaps in our data-gathering system. It became clear, for example, that there is data we are routinely already gathering (i.e. the Final Internship Evaluation Form) that needs to be integrated into the IR data base. This step would make our data much more assessable. Acting upon this newfound awareness is arguably one of the most crucial outcomes of the review process.

E. Faculty Information

- Comment on the Faculty Information of the program.

As has been noted elsewhere in this document, the Speech-Language Pathology Program is currently understaffed. An unexpected and very late retirement, in the summer of 2015, produced a gaping hole in program staffing. The lone remaining full time faculty member, Ms. Beth Meyerowitz, endured an unexpectedly challenging year. Beth accepted the challenge of teaching several new preparations and also the challenge of finding, hiring, and mentoring additional part-time instructors. Still, it has been a great year for Beth. Most noteworthy was her completion of her doctoral studies; Dr. Beth Meyerowitz' level of preparedness has been elevated. Our success at recruiting and hiring an expanded team of part-time instructors was crucial to maintaining a high quality of instruction and supervision. Across the board, the team of part time instructors and supervisors have performed admirably. Students' academic needs have been attended to.

At this specific moment in time, the summary of faculty information is admittedly tentative. As was stated previously, the SOE is immersed in a search for a doctoral level, tenure track faculty member. We expect this search will come to a positive conclusion within the next month. This impending victory, however, will be insufficient. The goal is to hire a second tenure-track faculty member as soon as possible. If the Master's Degree Program request is ultimately funded, the SOE will be prepared to move forward toward with the hiring of three tenure-track faculty who have the required educational background and an appropriate collection of prior experiences. Another key personnel-related action is to make a commitment to creating a more informed team of part-time instructors and supervisors. Too often, PTIs are hired to teach a single course or to supervise a few interns without having been provided with the opportunity to gain a much broader and deeper understanding of the overall program goals, etc. The best programs are coherent programs.

F. Student Information

- Comment on the Student Information and Assessment Information of the program.

The most significant defining quality of the speech-language pathology majors has been their being held to a higher standard than what is required of all the teacher education majors. The most visible proof of this difference is the minimum required grade point average required for admission to the Speech-Language Pathology Program is 3.0 as compared to the minimum grade point average of 2.5 for our teacher education programs. This variation in academic expectation, even though NSC does not currently have a Master's Degree program, is linked with the graduate school pathway. Gaining admission to a Master's Degree program almost certainly requires a grade point average that is beyond 3.0; it is important that NSC undergraduates are held to a standard that poises them to compete successfully for this opportunity.

Demographically, while less diverse than the overall NSC student body, the Speech-Language Pathology Program, has consistently enrolled a diverse group of students. Over the past decade, 91% of program graduates have been female and 24% have been from a minority group. By comparison, the percentage of NSC Speech-Language Pathology majors in the program is 40% minority. This statistic rivals the overall percentage of minority status students attending NSC (44%). One obvious important metric to track in future years will be the percentage of majors from the various demographic groups that finish their program of study.

One of the primary benefits to undertaking this report is the positive pressure it has created relative to improving the depth and breadth of candidate and program assessment processes. The availability of high quality assessment data has not been extensive enough. The most glaring gap was the lack of data relative to the performance of program graduates in the years following their departure from NSC. Ongoing data relative to two key success indicators, employment retention data and program satisfaction data, were generally not available. The program has already initiated the first bold steps toward the annual gathering of high quality tracking data. This report reports from an initial survey of recent program graduates. The SOE will also be networking with CCSO in the near future with the goal being to gain access to employment and retention data. With regard to pre-graduation/program completion, the data was generally more available but also not being used in a systematic, ongoing way. The SOE has initiated steps to insure that the data being gathered, especially including data relative to performance of required examinations and candidate performance in pre-internship and internship experiences, will be more fully utilized used in future years. Collectively, the data that is already available and the new data that will be gathered, will provide a solid foundation for making program changes.

G. Resources

- Comment on Information, Technology, Space, and Equipment Resources of the program.

Recently, the Speech-Language Pathology Program has made significant strides in upgrading the overall variety and quality of available resources. Over the past 2-3 years, the SOE has consistently allocated \$5,000+ annually to upgrade and expand the quality of technology, equipment, testing materials, etc. An emerging strength is the availability of high quality and current software and hardware available to students. The move to the new Nursing, Science, and Education Building in July, 2015 further enhanced the strength of the resource base. Most notable was the availability of SMART technology in all classrooms. At this particular moment in time, the resources needed to operate a high quality speech-language pathology program that is solely focused upon preparing candidates for employment in K-12 school settings, are readily available. Obviously, the projected addition of a Master's Degree program will produce a new set of resource needs as candidates' academic program expand to include preparation for working in private clinics, medical settings, etc.

H. External Validation

- *Comment on External Validation information of the program.*

The fact that Nevada is the only state in the nation to allow baccalaureate level speech-language pathology students to practice, significantly complicates the selection of external reviewers. The decision was made to remain in-state. The two external reviewers included one from the University of Nevada Reno (UNR) and one from the Clark County School District. UNR is the only NSHE institution to offer the Master's Degree in Speech-Language Pathology. UNR also is the source for a significant number of speech-pathology students who enroll in NSC's post-baccalaureate sequence. This is an attractive alternative for UNR students who are not selected to enroll in a Master's Level Program. This relationship makes UNR a logical choice for an external review. The CCSD-based reviewer was also a very logical and appropriate choice given that the overwhelming majority of NSC Speech-Language Program graduates find immediate employment with CCSD. This relationship will become even more crucial if/when NSC adds the Master's Degree program option. Almost certainly, there will be a need for maintaining an undergraduate licensure program to help fill open positions while also creating graduate level programming that very well might initially focus upon helping transition a large number of current CCSD employees from a baccalaureate degree to an advanced degree level of training.

I. Departmental Evaluation

- *Comment on the Department's Evaluation.*

As Dean of the School of Education, I was generally very pleased with the overall quality of the 10 year review report that was authored by Dr. Meyerowitz. Thankfully, Dr. Meyerowitz was the beneficiary of excellent support from SOE administrative staff and from others throughout the SOE and the NSC community. The entire team is to be commended for their outstanding effort.

Overall, I believe the report is accurate, to the degree that the necessary data was available. Without a doubt, the data gathered and reported was illuminating and provided a snapshot of the key victories and revealed growth opportunities. I am confident that the Report provides the SOE with a strong foundation for the coming decade.

J. Strengths & Weaknesses

- *Write a summary evaluation of the strength and weaknesses of the program.*

As a new institution where all programs are relatively "new" programs, this is the first 10 year review for the Speech-Language Pathology Program.

With regard to weakness, admittedly, the program has encountered a sometimes daunting set of challenges. Two key challenges are the most evident in the 10 year review. Most vexing, arguably, is/was faculty turnover. While the faculty that have spent time working in the Program, both the full-time faculty who worked for a relatively short amount of time in the Program and the collection of part time instructors and supervisors who have worked at NSC for varied amounts of time, were talented and exerted great effort while employed at NSC, the lack of consistency made incremental, steady progress very difficult to achieve. The hiring freeze that resulted from the serious financial crisis at the five year mark in the history of NSC clearly exacerbated the problem. More than anything else, the Program will benefit from the hiring and retention of full full-time, tenure-track faculty and a similar solidifying of part time members of the team. A second key challenge is to complete the planning and implementation of a program evaluation plan that will provide a much needed foundation for decision-making. The benefits to systematic data-gathering are many. Especially important, as per the report, are the opportunity for creating a more coherent and aligned

curriculum and for creating a more powerful and articulated set of opportunities for students to apply and perfect their clinical skills.

Having said this, obvious program strengths emerged. Most impressive of all was the resilience and tenacity of the individuals who were a part of the Program. The story of the Speech-Language Pathology Program mirrors the spirit of the entire NSC community. NSC has survived and thrived in the face of sometimes overwhelming odds. The “can do” spirit that permeates this place, once again, was sufficient to carry the day. At this significant moment in time, the program has achieved many outstanding accomplishments – not the least of which is the growth in student enrollment from total (fall plus spring) headcounts of 45-135 in the first five years to the total head count of 190-210 for the last five years. In total, the program has graduated 80+ undergraduate who were K-12 licensure-ready and also finished a significant number of post-baccalaureate students who were also licensure ready. Clearly, the program has made a very significant contribution to CCSD.

At this moment in time, In the Spring of 2016, the Speech-Language Pathology Program is poised to begin a series of very exciting new ventures and accomplishments – especially including the possible addition of NSC’s first Master’s Degree Program, the hiring of new full-time faculty, and collaboration with the Scottish Rite Foundation of Southern Nevada in the operation of a RiteCare Speech Clinic. Adding the Clinic to our Program operation will significantly enhance the experiential component of the Program for SLP majors while simultaneously provided much need services for pre-school children and their families.

K. Plan for Improvement

- Explain the plan for sharing the program review commendations and recommendations with faculty. Provide a general plan for continued improvement.

As per the comments dispersed throughout this Dean’s review section, the Speech-Language Pathology Program is poised for elevating the quality of the programming and the quality of the learning experience for the students. Realizing this dream will hinge, to a significant degree, upon the degree to which current and projected new faculty will invest in the opportunity. The first step to making this happen is to create events where the recommendations and commendations are widely shared with the current teaching/supervision team – including both full-time faculty and part-time instructors. A second key will be to embracing a transparent strategy for sharing this information with prospective and incoming future faculty. Truly, the SOE will need to tell a compelling story of what has been achieved and also what new faculty can become a part of! A third key will be to do a very credible job of dialoguing with key NSC faculty and administrators who work outside of the Program and also outside the School of Education. Prominent amongst this set of individuals will be the new Provost who will hopefully join NSC sometime in 2016-2017. A fourth key will be to take full advantage of the “bounce” that will result from having completed this report by sharing what has been learned and what is looming on the horizon with key collaborating entities (including Scottish Rite, CCSD, and the Board of Examiners) and with prospective program donors/supporters. Finally, the Program will need to make a strong commitment to systematic program evaluation. Gathering and utilizing program data is the key to creating a growth-centered environment where continuous improvement is the goal.

APPENDIX A - FACULTY VITAE

Speech-Language Pathology Faculty

Elizabeth A. Meyerowitz, Ed.D., Assistant Professor

Beau England, Aud.D., CCC-A, Adjunct Faculty

Pam Pardee, M.A., CCC-SLP, Adjunct Faculty

Terri Lacey, M.S., CCC-SLP, Adjunct Faculty

Barbara Forney-Misuraca, M.A., CCC-SLP, Adjunct Faculty

Kim Forni, M.A., CCC-SLP, Adjunct Faculty

Amy Bourji-Nassar, M.A., CCC-SLP, Adjunct Faculty

Related Faculty

Roberta Kaufman, Ed.D., Assistant Professor

Lori Navarrete, Ph.D., Associate Professor

Amanda VandeHei, Ph.D., Assistant Professor

Kevin Graziano, Ed.D., Professor

Sarah Bryans-Bongey, Ed.D., Assistant Professor

Professional Vita

Name: Elizabeth A. Meyerowitz, Ed.D.

Home address: 992 Olivia Parkway

Henderson, NV 89011

Cell phone: 520-591-6941

Business address: Nevada State College

1081 E. Paradise Hills Drive, NSE, Room 343

Henderson, NV 89002

Business Phone: 702-992-2534

Email: meyerowitzb@mac.com

Present Position: Assistant Professor of Speech Language Pathology

Employer: Nevada State College

1125 Nevada State Drive

Henderson, NV 89002

Academic History:

- Northern Arizona University, Flagstaff, AZ (2015), Ed.D. in Educational Leadership
Dissertation: *Putting the Special into Administration: A Study of Special Education Directors in Arizona*
- Northern Arizona University, Flagstaff, AZ (2007), M.Ed. in Educational Leadership
- University of California, Santa Barbara, CA (1984), M.A. in Speech and Hearing Sciences
- University of the Pacific, Stockton, CA (1980), B.A. in Communicative Disorders

Experience:

7/2016 – Present

- Assistant Professor, Speech Language Pathology, Nevada State College, Henderson, NV
 - Design and teach coursework:
 - SPA 301: Survey of Speech Pathology
 - SPA 340: Speech and Language Development
 - SPA 364: Articulation Disorders
 - SPA 370: Methods of Clinical Management
 - SPA 400: Assessment of Communication Disorders
 - SPA 401: Fluency and Voice Disorders
 - SPA 441: Clinical Practicum
 - SPA 466: Rehabilitation for Hearing Handicapped
 - SPA 467: Communication and Language Disorders in Children
 - SPA 491 B & C: Extended Experience in SLP: Language Disorders & Assessment
 - EDSP 432: Serving Individuals with Disabilities and Their Families
 - Coordinate clinical practicum
 - Provide clinical supervision of practicum students
 - Select and support adjunct faculty
 - Schedule courses
 - Advise students in Speech Language Pathology
 - Serve(d) on school and campus-wide committees including:
 - NSC Curriculum Committee
 - Student of Concern Committee
 - SON and SOE Search Committees
 - NSC IRB Committee
 - Faculty Senate

8/2012 – 6/21016

- Lecturer, Speech Language Pathology. Nevada State College, Henderson, NV
 - Design and teach coursework:
 - SPA 301: Survey of Speech Pathology
 - SPA 340: Speech and Language Development
 - SPA 364: Articulation Disorders
 - SPA 370: Methods of Clinical Management
 - SPA 400: Assessment of Communication Disorders
 - SPA 401: Fluency and Voice Disorders
 - SPA 441: Clinical Practicum
 - SPA 466: Rehabilitation for Hearing Handicapped
 - SPA 467: Communication and Language Disorders in Children
 - SPA 491 B & C: Extended Experience in SLP: Language Disorders & Assessment
 - EDSP 432: Serving Individuals with Disabilities and Their Families
 - Coordinate clinical practicum
 - Provide clinical supervision of practicum students
 - Select and support adjunct faculty
 - Schedule courses
 - Advise students in Speech Language Pathology
 - Serve(d) on school and campus-wide committees including:
 - NSC Curriculum Committee
 - Student of Concern Committee
 - SON and SOE Search Committees
 - NSC IRB Committee
 - Faculty Senate

4/2011 – 7/2012

- Program Specialist/Exceptional Student Services. Arizona Department of Education, Tucson, AZ
 - Monitored public education agencies for compliance with state and federal law
 - Provided technical assistance on regulatory compliance
 - Trained PEA staff on special education issues

5/2010 – 1/2013

- Adjunct Online Faculty. Grand Canyon University. Phoenix, AZ
 - Taught courses in special education

8/2001 – 10/2010

- Preschool Coordinator/SLP. Vail Unified School District, Vail, AZ

- Responsible for evaluation, placement and transition of preschoolers with disabilities within the Vail School District.
- Supervised professional and paraprofessional staff of 40 assigned to 2 sites.
- Scheduled staff and students, in coordination with school district and community-based preschools.
- Responsible for selection and implementation of curriculum
- Prepared Child Outcome reports
- Selected and led ECQUIP team
- Provided in-service training to certified and classified staff
- Hired and trained personnel
- Served on Special Education Management Team
- Supervised 5 SLPs

1/1999 – 5/2001

- Project Coordinator. Pilot Parents of Southern Arizona. Tucson, AZ
 - Coordinated Parent Training and Information Center Grant awarded by United States Department of Education
 - Provided advocacy training for parents of children with disabilities
 - Monitored grant activities
 - Reported to Office of Special Education Programs
 - Facilitated parent to parent and community relationships, in conjunction with grant funding
 - Collected and reported required data

8/1997 – 12/1999

- Research Assistant/instructor. University of Arizona. Department of Special Education and Rehabilitation. Tucson, AZ
 - Responsible for data collection and analysis
 - Taught course on Speech Development/Instruction for Hearing Impaired Children

8/1992 – 7/1996

- Clinical supervisor/instructor. University of Arizona. Department of Speech and Hearing Sciences. Tucson, AZ
 - Instructed, supervised and mentored graduate students in Speech/Language Pathology

8/1990 – 5/1992

- Speech/Language Pathologist. Amphitheater Public Schools. Tucson, AZ
 - Responsible for evaluation, placement and provision of speech/language services to preschoolers with disabilities

1987 – 1990

- Speech/Language Pathologist. Children's Therapy Group. Overland Park, KS

- Evaluation and treatment of communication deficits to school aged children

1986 – 1987

- Speech/Language Pathologist/Program Coordinator. University of Kansas, Lawrence, KS
 - Responsible for planning, teaching, and supervising graduate level students at the Language Acquisition Preschool
 - Collected research data
 - Trained and supervised staff members

8/1985 – 5/1987

- Speech/Language Pathologist. Arizona State Schools for the Deaf and Blind, Tucson, AZ
 - Provided evaluation and treatment for school aged children with hearing impairments

1/1984 – 7/1985

- Speech/Language Pathologist. Memorial Rehabilitation Hospital. Santa Barbara, CA
 - Conducted evaluations, designed treatment plans and provided speech/language services to adolescent and adult patients with neurological disorders, including CVA and TBI

Professional and Community Activities:

- American Speech, Language and Hearing Association (ASHA)
 - Certificate of Clinical Competence in Speech Language Pathology

OBJECTIVE:

Instruct and educate on a variety of diagnostic audiology services to appropriately assist in the prevention, treatment, and/or diagnosis of hearing and balance disorders.

EDUCATION:

Utah State University

Doctor of Audiology

GPA: 3.95

Logan, UT

May 2012

Utah State University

Bachelor of Science, Communicative Disorders

Cum Laude

GPA: 3.48

Logan, UT

August 2008

WORK HISTORY:

Nevada Ear and Sinus Institute

Director of Audiology

- Audiometric testing, pediatric testing, vestibular testing, and hearing aids
- Conducting and managing audiology business in the practice

Las Vegas, NV

May 2012 - present

Nevada Ear and Sinus Institute

4th year AuD Externship

- Audiometric testing, pediatric testing, vestibular testing, and hearing aids

Las Vegas, NV

November 2011 - May 2012

Anderson Audiology

4th year AuD Externship

- Audiometric testing, pediatric testing, ABR, and VNG

Las Vegas, NV

May 2011 - October 2011

Lowe's

Customer Service Associate

- Building Materials/Lumber department

Logan, UT

March 2007 - April 2011

CLINICAL EXPERIENCE:

Anderson Audiology & Nevada Ear and Sinus Institute

Student Clinician/Externship

Las Vegas, NV
May 2011 - May 2012

- Audiometric testing, pediatric testing, ABR, DPOAE, VNG, and hearing aids

Intermountain Health Care Hearing and Balance Center

Student Clinician

Salt Lake City, UT
Spring 2011

- Audiometric testing, ENG/VNG, VEMPS, ECHOG, ENOG, posturography, and rotary chair
- Intraoperative monitoring for cochlear implant surgeries, acoustic schwannomas, meningiomas, etc.

Ogden Clinic

Student Clinician

Ogden, UT
Fall 2010

- Audiometric testing, VNGs, and hearing aids.

Anderson Audiology/Nevada Hearing and Balance

Student Clinician

Las Vegas, NV
Summer 2010

- Audiometric testing, VNGs, and hearing aids.

Ogden Audiology Service

Student Clinician

Las Vegas, NV
Summer 2010

- Audiometric testing, ENGs, and hearing aids.

Utah State Hearing Clinic

Student Clinician

Ogden, UT
Fall 2008 - Spring 2010

- Audiometric testing, hearing aids, pediatric diagnostics, and cochlear implant mapping.

LEADERSHIP/TEACHING EXPERIENCE:

Utah State University

Student Academy of Audiology: Public Relations Officer and Secretary

- Organized a successful Traumatic Brain Injury conference
- Wrote a grant for humanitarian mission and participated in several fundraisers.
- Research on noise exposure during sporting events (awaiting publication).

Church of Jesus Christ of Latter-Day Saints Mission

Two Year Full-Time Missionary

- Served as Assistant to the President, Zone Leader, District Leader, and Trainer
- Presented trainings and lectures on several occasions, and trained new missionaries.

Boy Scouts of America

Eagle Scout

- Completed all requirements including service project of building supply boxes for girls' camp.
- Contacted resources for all materials and labor to be donated to build and fill the boxes.

OBJECTIVE

To provide quality service for individuals with speech, hearing, cognition and language difficulties, in order to enhance language and literacy skills, promote effective communication, and improve their quality of life.

EDUCATION

- 2010-Current **University of Nevada, Las Vegas**
-Ph.D, Teaching and Learning with dual emphasis: TESL & Autism
- 2004-2005 **University of South Florida**, Tampa Florida
-Ph.D, Communication Sciences and Disorders (did not complete)
- 2004-2007 **University of South Florida**, Tampa Florida
-M.S, Speech-Language Pathology
- 2002-2004 **American University of Beirut**, Beirut Lebanon
-M.A. Applied Linguistics
- 1999-2002 **American University of Beirut**, Beirut Lebanon
-B.A. English Literature
-Completed freshman year, equivalent to the Lebanese Bach II
- 1995-1998 **Ursuline Academy**, Dedham, MA USA
-High School Diploma

EMPLOYMENT

- 01/14 -Current **Speech and Language Pathologist**, Per Diem, Desert Springs Hospital
-Perform bedside swallow exams and speech, language and cognitive evaluations for geriatric patients
-Modify diets for dysphagia patients and assess and treat swallow function and efficiency
-Conduct speech, language, and cognitive therapy on adults and geriatric patients
-Complete evaluation forms and necessary CERNER application daily documentation
- 01/12-Current **CCSD Practicum Site Supervisor**, Nevada State College
-Supervise SLP Practicum students as they conduct evaluations, assessments and therapy in various CCSD schools and ChildFind settings
-Complete evaluations and reports based on their strengths and weaknesses and discuss alternate strategies for therapist and assessment
- 01/07-Current **Instructor**, Nevada State College, Speech Pathology Department
-Instructor for undergraduate level course, SPA 401: Fluency
-Instructor for undergraduate level course, SPA 467: Language Disorders in Children
-Instructor for undergraduate level course, SPA 330: Communication Sciences
-Instructor for undergraduate level course, SPA 340: Normal Development and Disorders of Speech and Hearing
-Instructor for undergraduate level course, SPA 439: Neurology
-Instructor for undergraduate level course, SPA 491: Extended Classroom Experience in SLP: Articulation
- 08/10-06/15 **Graduate Assistant**, University of Nevada, Las Vegas
-Instructor of EDU 202, Introduction to Secondary Education
-Instructor of EDRL 471, Language Acquisition, Development and Learning
-Instructor of EDSC 323, Teaching and Learning Secondary Education

- 01/10-04/10 **Speech and Language Pathologist, Per Diem**, Spring Valley Hospital
 -Conduct evaluations of cognitive, communicative and swallowing skills/functions
 -Conduct speech and swallowing therapy techniques to improve communication and/or Swallowing abilities
 -Complete appropriate paperwork, as specified by the hospital
- 01/07-05/11 **Instructor**, University of Las Vegas
 -Instructor for *Accent Reduction* class
 -Teach phonological awareness, vowel chart, and place/manner for accurate articulation to ESL speakers
- 01/07-05/08 **Speech, Language Pathologist**, Henderson, Speech, Hearing and Language Center
 -Speech, literacy, articulation, cognition, auditory processing, hearing, and behavioral therapy for children and adults
 -Trained in *Discrete Trial Training*, and *Augmentative and alternative communication*
 -Major part of caseload includes children with Autism Spectrum Disorder
 -Experienced in:
 - ABA therapy
 - Speech production/ articulation skills
 - Receptive and expressive language skills
 - Speech production/ articulation skills
 - Social skills
 - Feeding and swallowing
 - Oral motor skills
 - Disorders of voice
 - Hearing disorders
 - Disorders of fluency
 - Reading therapy (Lindamood-Bell program)
 - Augmentative and alternative communication skills
 - Discrete Trial Training
- 09/06-05/07 **Speech, Language Pathologist**, Heights of Summerlin Rehabilitation Facility
 -Speech, swallowing, cognition, and literacy therapy for the geriatric population
 -Conduct a variety of therapy strategies, applied vital stimulation, worked with modified barium swallows, and modified diets accordingly

RESEARCH

Crozier, S., Love, J., Loe, S., Gaspar de Alba, M., Werlinger, A., Beasley, J., Arin, D., Davis, R.E., Harvey, V., Arcia, A., & Bourji-Nassar, A. (2014, October). *Addressing the Health Disparity in Children with Autism Spectrum Disorders*. Panel presentation at the 2014 UNLV and UNSOM Interprofessional Health Equity Symposium, Las Vegas, NV.

- 09/08-03/09 **UNLV** research project testing a post-hire communicative competence training program for internationally educated nurses.
 -served as the SLP on the project; duties included:
 - pretesting and posttesting nurses using the Compton Assessment of Foreign Accent
 - Giving accent reduction classes to nurses within the experimental group
 - Helping with data analysis to determine whether accent reduction will help to improve communication for ESL nurses

ACHIEVEMENTS

D. Undergraduate Mentoring

Nevada State College

1. Mentored a SOE special education major/teacher education to prepare for NASA Science Conference

Graduate Student Mentoring at USD, Vermillion

1. Two doctoral students
2. Seven advanced specialists working on master's degree

TEACHING AND ADVISING, continued

3. Twelve multi-categorical master's degree students
- E. Non-classroom undergraduate research mentoring, internship experiences, workshops
- Nevada State College**
1. Mentored one undergraduate special education student through the data collection and preparation of a poster for the 2016 Undergraduate Research & Creative Works Conference at NSC
 2. Designed and supervised field experiences for special education students in
EDU 208, fall, 2015: 28 students @ 10 hours each in four CCSD elementary schools
EDSP 443, spring 2016: 11 students @ 10 hours each in three CCSD elementary schools
 3. Advise 36 students in the teacher preparation program
 4. Annually review 30 teacher preparation program admission essays
 5. Annually assess portfolio presentations of 8-10 student teachers
 6. Supervised one secondary history education student teacher

USD undergraduate research mentoring – 2007-08

Designed and implemented “Picture My World,” a Carter Grant from USD to embed working with adults with developmental disabilities in SPED300. The project included training and data collection.

USD Undergraduate Internship and Mentoring

Fall, 2009 SPED394 Special Education Internship = 9 students
Spring, 2009 SPED394 Special Education Internship = 2 students
Fall, 2008 SPED394 Special Education Internship = 17 students
Spring, 2008 ELED394 Elementary Education Internship = 32 students

USD undergraduate Student Teacher Mentoring

- Spring, 2010 - Three Special Education Student Teachers
- Spring, 2009 - Three Special Education Student Teachers
- Fall, 2008 - Four Elementary Education Student Teachers
- Spring, 2008 - One Special Education Student Teacher
- Fall, 2007 - Four Elementary Education Student Teachers

USD Supervising and Mentoring Diverse Field Experiences

- Operation Coyote
October 14, 2009 - Supervised and observed 11 USD students at Beresford MS
November 2, 2007 - Supervised and observed 17 USD students at Beresford HS
- Rosebud Junior Diversity Trip to the Rosebud Indian Reservation BIE Schools
April 20-21, 2009 - Supervised 32 elementary practicum students
April 21-22, 2008 - Organized, supervised, and observed 29 elementary students
- Diversity Day Experiences for Student Teachers
Feb. 10, 2009 All City Elementary/Family Immersion Center at Jane Adams, SF, SD

TEACHING AND ADVISING, continued

- Supervised 10 elementary education student teachers
February 12, 2008 – Hutterische Colony School, Tabor, SD
- Supervised 10 elementary education student teachers
September 27, 2007 – Irving Elementary Bilingual School, Sioux City, Iowa
- Supervised 10 elementary education student teachers
- Urban Diverse Field Experience, Saint Paul Public Schools, Saint Paul, MN
November 10-11, 2008 –
Organized and supervised a day-long special education practicum experience at two elementary schools, Bruce Vento and Highwood Hills, for 11 special education practicum students.

F. Development of teaching strategies, assessments, methods

Nevada State College

- 2015-16 Developed and implemented field experiences for EDSP 443 and EDU 208
Redesigned Key Performance for EDSP432 in collaboration with Dr. Lori Navarrete
 - 2014-15 With other SOE faculty began the work of creating a common rubric for student and program assessment in SOE
 - 2013-14 Collaborated with other SOE faculty to redesign the learner outcomes for program assessment in all teacher licensure courses
 - 2012 Supercourse development with Dr. Rho Hudson & Dr. Christi Carmack
InTechnology Fellows (TFI) project EDU 203
 - 2011 –14 Developed hybrid and online versions of EDU 208, EDSP 446, EDSP 414, and EDSP 443
- University of South Dakota
- 2009 – 2011 Developed and delivered hybrid version of SPED761
 - 2008 – 2011 Incorporated the use of Jolley Elementary School's observation room for training special educators to observe and collect data
 - 2008 – 2011 Enhanced all on-campus courses with D2L technology
 - 2008 Developed and delivered online version of SPED703
 - 2007 Developed service learning component for SPED300

G. Workshops and seminars attended to incorporate technology and improve instruction:

Nevada State College

- 2015-16 SOE Reading Group: *Asking Questions*: ASCD book
- 2014-15 Professional Development sessions, CANVAS
- 2013-14 Participated in OTI sessions on CANVAS upgrades and effective strategies
- Summer, 2013 Piloted the use of CANVAS in summer courses for SOE
- Fall, 2012 Participated in SmartBoard training seminars
- Summer, 2012 Involved in TechFellows project to develop Supercourse EDU 203
- July, 2012 Differentiated Instruction Conference (SDE) Las Vegas, NV
- Jan., 2012 Technology Innovations Conference Orlando, FL

TEACHING AND ADVISING, continued

USD Center for Teaching and Learning

1. Community of Purpose
 - Fall, 2010 – *The Courage to Teach* by Parker Palmer
 - Fall, 2009 -- *The Long Haul* by Myles Horton
 - Fall, 2008 -- *The Art of Changing the Brain* by James Zull

Dr. Lori Ann Navarrete
Nevada State College
702-992-2519 lori.navarrete@nsc.edu

EDUCATION

Ph.D. in Special Education. University of New Mexico, Albuquerque, NM, 1992

Dissertation: *Epidemiology of Depressive Symptoms Among Adolescents With and Without Learning Disabilities*. Emphases: Assessment, Sociocultural and Linguistic Competence

M.S. in Special Education. University of New Mexico, Albuquerque, NM, 1985. Emphases: Learning Disabilities, Identification and Diagnosis of Disabilities (Educational Diagnostician License, 1987)

B.S. in Secondary Education –Social Studies, Minor in Special Education. University of New Mexico, Albuquerque, NM, 1984

PROFESSIONAL EMPLOYMENT

Associate Professor, School of Education, Nevada State College, Henderson, Nevada, July 1, 2011-present: Selected current and past responsibilities include teaching courses in special education, TESL, foundations, and secondary pedagogy; Coordinator of STEP UP Early Teacher Recruitment Program; PI on STEM-Related Congressionally-directed grant.

Dean/Interim Dean, School of Education, Nevada State College, July 1, 2009-June 30, 2011: Selected initiatives commenced and/or sustained under Dr. Navarrete's Deanship -

- Enhancement of educational offerings in the SOE, to include new degrees and revision of curricula
- Development of SOE assessment program
- Expansion of SOE enrollment in both the undergraduate and post-baccalaureate programs
- Development and implementation of SOE Online Teaching Certificate
- Creation of new in-person and online course evaluation system
- Continuation of STEP UP Program to increase the number of 1st generation, diverse teacher candidates
- Solidified numerous partnerships with the school district and community
- Completed successful reviews with the Nevada Department of Education and the Northwest Regional accreditation teams

Associate Dean/ Interim Associate Dean, School of Education, Nevada State College, January 1, 2007-June 30, 2009: Duties included development of adjunct faculty evaluation process and documentation, curriculum alignment across eight degrees, implementation of a new degree in deaf education, initiated the TESL 4-in-1 Program with CCSD, development of state accreditation portfolio, establishment of procedures for school and community partnerships, drafting of school of education policies and procedures, support of NSC education programs in Northern Nevada.

Associate Professor, School of Education, Nevada State College, 2006-2007: Carried out the duties of the Coordinated the STEP UP and MITT Programs; taught 12-credit load in special education and TESL.

Associate Professor, Graduate Faculty, Department of Special Education, University of Nevada, Las Vegas, 2002-2006: Carried out the duties of Coordinator of the TESL and Teach for America Programs, developed the accelerated TESL endorsement program for special education teachers, participated in NCATE review, taught a 9-credit load.

Assistant then Associate Professor, Graduate Faculty, Department of Special Education (Promoted and Tenured 1999), Kansas State University, 1993-2002: Develop courses in multicultural and TESL education for special education teachers, participated in the development of a faculty mentoring program for the college of education, participated in NCATE review, supervised student teachers across the state of KS, taught a 9-credit load.

Educational Diagnostician, Central Region Center Cooperative, Albuquerque, NM, 1992-1993: Duties included screening, assessment, and diagnosis of students referred for disability testing in seven rural New Mexico School Districts including tribal communities, participated in Child Find programs.

Educational Diagnostician, Private Practice - Contractor/Consultant, NM, 1989-1992: Screening, assessment, and diagnosis of adolescents and adults referred for testing in order to see if they qualified for accommodations in higher education or in the workplace.

Special Education Teacher (Grades 7-12), Memorial Psychiatric Hospital, Albuquerque, NM, 1987-1988: Responsibilities included instruction and accommodations outlined in individual education plans of students admitted to the hospital. It was a residential setting and all instruction was individualized. Assisted with transition back to neighborhood schools once released.

Special Education Teacher (Grades 9-12), Manzano High School, Albuquerque Public Schools, Albuquerque, NM, 1984-1987: Taught courses in history, English, and science to students identified with learning disabilities, behavior/emotional disorders, and other mild/moderate disabilities.

FUNDED GRANTS AND SPONSORED PROJECTS

Source: Congressionally-directed Grant Funds

Award: Higher education

Amount: 400,000.00

Date: 2009

Role: PI

Purpose: To support math and science teacher recruitment

Source: UNLV Planning Initiative Award

Award: Planning for Immigration Growth

Amount: \$150,000.00

Date: 2004

Role: Co-author and Project Collaborator

Purpose: To collect data on Latino/a demographics in NV

Source: Title II: NeCoTIP

Award: Teacher Training

Amount: \$38,000.00

Date: 2003

Role: PI

Purpose: To train special education teachers and their educational assistants together in TESL and Bilingual Methods, entitled Project PEARLS

Source: Title II: Eisenhower Grant

Award: Professional Development

Amount: \$2000.00

Date: 1997

Role: PI

Purpose: To collect data on practices of co-teaching

Source: Title II: Eisenhower Grant

Award: Professional Development

Amount: \$2000
Date: 1997
Role: PI
Purpose: To collect data on practices of action research

Source: KSU OSP
Award: New Faculty Research
Award: \$3000.00
Date: 1994
Role: PI
Purpose: To support new faculty research initiatives

- Haddad, Z., & VandeHei, A. (2013, April) *Bridging Dialogic Instruction and Teacher Self-Disclosure: A Case Study of a University Multicultural Education Course*. Single paper presentation at the annual American Educational Research Association in San Francisco, CA.
- Villanueva, N., VandeHei, A., & Kaalberg, K. (2012, August) *Exploring field experience models and the impact on preservice teacher literacy education*. Single paper presentation at the annual National Council for the Teachers of English in Las Vegas, NV.
- Villanueva, N., VandeHei, A., & Kaalberg, K. (2012, August) *Exploring field experience models and the impact on preservice teacher literacy education*. Single paper presentation as part of the Emerging Scholars Series accepted for presentation at the summer meeting of the Association of Teacher Educators in Boston, MA.

Guest Lectures

- VandeHei, A. (2015). Let's Continue The Conversation – Questions from "Why I Teach Now." University of San Antonio, Texas.

COURSES TAUGHT

EDEL 442: Teaching Elementary School Science
EDRL 461: Diagnostic Assessment and Instruction Literacy
EDRL 407: Teaching Literature
EDRL 442: Literacy Instruction I
EDRL 443: Literacy Instruction II
EDRL 451A: Content Area Literacy

EDRL 451B: Secondary Content Literacy
EDRL 427: Writing Across the Curriculum
EDRL 477: Curriculum Development for English Language Learners

AWARDS AND DISTINCTIONS

- 2015 iTeach Award Nomination for the creation and development of NEST – New Teachers Support and Training
- 2015 Women of Excellence – Awarded by the Nevada State College Department of Diversity and Inclusion

Kevin J. Graziano Ed.D.

EDUCATION

- 2003 **University of San Francisco**, San Francisco, CA.
Doctor of Education (Ed.D.)
International and Multicultural Education- major field of study.
Educational Technology- minor field of study.
- 2000 **Central Connecticut State University**, New Britain, CT.
Master of Science (M.S.)
Counseling- major field of study.
- 1993 **University of Connecticut**, Storrs, CT.
Bachelor of Arts (B.A.)
Journalism- major field of study.

PROFESSIONAL HONORS, AWARDS, RECOGNITIONS

- 2015, Sabbatical, Nevada State College
- 2014 AdvancED Certified Accreditation Reviewer
- 2014 Provost's InstructureCon (Canvas) Scholarship Recipient
- 2012 Nevada System of Higher Education, Board of Regents' Teaching Award
- 2012 Fellowship, University of the Sunshine Coast, Queensland, Australia.
- 2012 Fellowship, Marino Institute of Education, Trinity College, Dublin, Ireland.
- 2012 Fulbright Specialist Grant, Sakhnin College, Sakhnin, Israel.
- 2008 Nevada State College iTeach Economic Development Award
- 2007 National Institute for Staff and Organizational Development (NISOD) Excellence Award
- 2006 Nevada State College iTeach Teaching Excellence Award
- 2006 City of Henderson and the Henderson Chamber of Commerce Outstanding Teacher Award
- 2006 Distinguished Educator Proclamation, City of Henderson, Nevada
- 2005 American Education Research Association (AERA) Scholar-Activist Award
- 2004 University of San Francisco Outstanding Doctoral Student Award
- 2003 University of San Francisco, Graduate Merit Scholar
- 2003 Doctoral dissertation archived at the Historical Papers Collection, William Cullen Library, University of Witwatersrand, Johannesburg, South Africa
- 2002 Amnesty International, Patrick Stewart Human Rights Scholarship Finalist

PROFESSIONAL EXPERIENCE

- 2014-present **Professor (with tenure)**, Nevada State College, Teacher Preparation Program, Henderson, NV. Teach undergraduate TESL, technology, and pedagogy education courses. Advise elementary and secondary education students.

- 2009-2014 **Associate Professor (with tenure)**, Nevada State College, Teacher Preparation Program, Henderson, NV. Teach undergraduate TESL, technology, and pedagogy education courses. Advise elementary and secondary education students.
- 2012 **Fulbright Scholar**. Sakhnin College, Sakhnin, Israel. Taught courses on participatory action research to Arab, Muslim preservice teachers. Guest lectured in remedial English course.
- 2012 **Visiting Fellow**, University of the Sunshine Coast, Queensland, Australia. Provided professional development workshops on participatory action research and educational technology to Papuan teachers from Papua, New Guinea, teachers and staff from Doomadgee, an Aborigine school located in Northern Australia, faculty from the university, and teachers from local primary schools. Guest lectured in research methods, research proposal, educational technology, and *Introduction to Aboriginal Society* courses.
- 2012 **Visiting Fellow**, Marino Institute of Education, Dublin, Ireland. Provided professional development workshops on participatory action research and photovoice to faculty and staff from five Catholic universities throughout Ireland including, The Church of Ireland College of Education, Mary Immaculate College, St. Patrick's College, Froebel College of Education, and the Marino Institute of Education (The University Dublin, Trinity College). Taught a literacy lesson at a local elementary school.
- 2004-2009 **Assistant Professor**, Nevada State College, Teacher Preparation Program, Henderson, NV. Taught undergraduate TESL, technology, and pedagogy education courses. Advised elementary and secondary education students.
- 2011-2015 **Online Teaching and Learning Coordinator**. Nevada State College, Teacher Preparation Program, Henderson, NV. Observe and evaluate online part-time instructors (PTIs). Assist in hiring PTIs and scheduling PTI courses. Maintain the PTI mentoring site in Canvas. Facilitate annual professional development workshops.
- 2007-2008 **Lecturer**, Sierra Nevada College, School of Education, Las Vegas, NV. Taught graduate curriculum and instruction education courses.
- 2007-2013 **Thesis Advisor**, Sierra Nevada College, School of Education, Las Vegas, NV. Chaired 33 theses in the M.Ed. program.
- 2006-2011 **Lecturer**, Central Connecticut State University, School of Education, New Britain, CT. Taught (summers) graduate multicultural education course.
- 2001-2003 **Teaching Assistant**, University of San Francisco, School of Education, San Francisco, CA. Assisted instructors of graduate multicultural education courses.
- 2000-2003 **Health Educator**, San Francisco Department of Public Health, San Francisco, CA. Taught high school health education course. Developed curricula. Assisted in grant writing.
- 2000-2003 **Substitute Teacher**, Live Oak Middle School, & Discovery Center School, San Francisco, CA. Taught K-8 English, Social Studies, Science.
- 1997-1998 **Lecturer**, Charles University, School of Medicine, Prague, Czech Republic. Taught undergraduate ESL course.
- 1997-1998 **Teacher**, State Language School, Prague, Czech Republic. Taught elementary to advanced ESL courses.

- Graziano, K. (2004). *Integrating documentary photography, storytelling, and needs assessment: A resource for administrators*. Presented at the It's All About Students: Period Conference. Sponsored by National Association of Student Personnel Administrators (NASPA). Denver, CO.
- Graziano, K. (2003). *Photovoice: An emerging participatory paradigm for healthful public policy*. Presented at the Beyond Collaboration: Fostering Communities of Practice Conference. Sponsored by the California Council on Teacher Education (CCTE). San Diego, CA.
- Graziano, K. (2002). *Developing inclusive curricula: Activities for homosexuality education*. Presented at the Lesbian, Gay, Bisexual, Transgender Association Conference. Sponsored by the University of California, Berkeley. Berkeley, CA.
- Graziano, K. (2002). *Queerness on a South African campus*. Presented at the Lesbian, Gay, Bisexual, Transgender Association Conference. Sponsored by the University of California, Berkeley. Berkeley, CA.
- Graziano, K. (2001). *Homosexuality out of the closet and into the classroom*. Presented at the Creating Change Conference. Sponsored by the National Gay and Lesbian Task Force Foundation. Milwaukee, WI.
- Graziano, K. (2001). *Shared stories: Integrating HIV and AIDS speakers into university curricula*. Presented at The Human in HIV: AIDS Across the Curriculum Conference. Sponsored by the University of San Francisco. San Francisco, CA.
- Graziano, K. (2001). *Sexual behaviors among adolescents: Implications for researchers and educators*. Presented at The Human in HIV: AIDS Across the Curriculum Conference. Sponsored by the University of San Francisco. San Francisco, CA.

INVITED PRESENTATIONS & PROFESSIONAL DEVELOPMENT

- Graziano, K. (2016). *Flipping Out: What's all the buzz on a flipped classroom?* Nevada State College, Henderson, NV.
- Graziano, K. (2016). Keynote speaker. Online teaching and learning professional development workshop. Western Region Academic Administrators. Nevada Virtual Academy. Las Vegas, NV.
- Olson, J., Barbato, S., Thomas, C., Mafra, M., Shoffner, M., Keneman, A., Bausch, M., Graziano, K., Hansen, R., & Slykhuis, D. (2015). *President's Panel*. The National Technology Leadership Summit (NTLS). Washington, D.C.
- Graziano, K., Finsness, E., Carpenter, J., Borthwick, A., DeBacker, T. (2015). American Association of Colleges for Teacher Education's (AACTE) Innovation and Technology Committee. The National Technology Leadership Summit (NTLS). Washington, D.C.
- Searson, M., Bull, G., Foulger, T., Hansen, R., Lee, J., Graziano, K., & Slykhuis, D. (2015). *National Technology Leadership Summit 2014: Make it! Wear it! But do so Informally!* Panel Discussion. Society for Information Technology and Teacher Education (SITE) Conference, Las Vegas, NV.
- Graziano, K. & VandeHei, A. (2015). *Effective and Engaging Practices in the Classroom*. Presented to the School of Nursing faculty. Nevada State College. Henderson, NV.
- Heering, M., Graziano, K., Carpenter, J., Finsness, E. (2014). American Association of Colleges for Teacher Education's (AACTE) Innovation and Technology Committee. The National Technology Leadership Summit (NTLS). Washington, D.C.

- Heering, M., Smaldino, S., Redmond, P., Graziano, K., & Thomas, T. (2013). *Supporting Effective Technology Integration and Implementation: An Educational Leader's Perspective*. The National Technology Leadership Summit (NTLS). Washington, D.C.
- Heering, M., Redmond, P., Smaldino, S., Harris, J., Crawford, D., Combs, B. & Graziano, K. (2013). *TPACK Alignment with the Intel Teach Elements Courses*. TPACK Summit. Sponsored by the Education Development Center, Boston, MA.
- Kaufman, R., & Graziano, K. (2013). *The Ireland Study Abroad Experience*. Welcome Back, Spirit Week. Sponsored by Nevada State College. Henderson, NV.
- Graziano, K. (2013). *So You Think You Can Teach Online: Qualified Faculty Wanted*. Part-time instructor professional development workshop. Nevada State College. Henderson, NV.
- Graziano, K. (2013). *SCVNGR: Gaming for the Classroom*. Nevada State College, Campus-wide full-time faculty professional development. Henderson, NV.
- Graziano, K. (2013). *From Avatars to Wordles: Online Resources for Higher Education*. Nevada State College, Part-time Instructor Professional Development Workshop. Henderson, NV.
- Graziano, K. (2012). *Successful Tools for the SMART Board*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2012). *Online Resources for Successful Teaching*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2012). *Education Abroad: A Panel Discussion on NSC's Global Initiatives*. Sponsored by the Provost's Office as part of a speaker's series on The Convergence of Technology & Diversity: Conversations on a New Generation of Learning. Henderson, NV.
- Graziano, K. (2012). *Reflections from the Middle East: An Educator's Journey to an Arab Teacher Education College in Israel*. Welcome Back, Spirit Week. Sponsored by Nevada State College. Henderson, NV.
- Graziano, K. (2011). *Wikis for the Classroom*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2011). *Teaching and Learning with iMovies, Flip Cameras, and YouTube*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2011). *Policies, Practices, and Partnerships for English Language Learner Success: Preparing for Nevada's Future*. Symposium sponsored by the Lincy Institute, UNLV and Clark County School District. Las Vegas, NV.
- Graziano, K. (2011). *Participatory Action Research*. Action Research Workshop. Sponsored by Clark County School District, Division of Assessment, Accountability, Research, and School Improvement. Las Vegas, NV.
- Graziano, K. (2010). *Easy Grade Pro*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K., Hudson, R. (2005-2010). *Resume writing workshop*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2009). Keynote Speaker, *National Education Week*, T.E.A.C.H. Academy. Las Vegas NV.
- Graziano, K. (2009). *Photovoice in K-12 schools*, Equity and Diversity Education Department, Clark County School District Professional Development Workshop. Las Vegas, NV.
- Graziano, K., Hudson, R. (2009). *The Electronic Compilation of Annual Review Documents*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K., Stansbury, R. (2009). *Differentiated Instruction*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2009, 2008). *Taskstream e-portfolio*. Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2008). *Community Involvement in a College Classroom*. Nevada State College School of Education. Henderson, NV.

- Graziano, K.; Navarrete, L. (2008). *Collaboration, Compromise, and Creativity in Co-Teaching*. Nevada State College. Campus-wide Professional Development. Sponsored by the Center for Teaching and Learning Excellence. Henderson, NV.
- Graziano, K., Stansbury, R. (2005-2008). *Part-Time Instructor Professional Development Training*, Nevada State College, School of Education. Henderson, NV.
- Graziano, K. (2008). *Gender Bias in the Classroom*. T.E.A.C.H. Academy Recognition and Educational Seminar. Panel Presentation sponsored by the T.E.A.C.H. Academy, Clark High School. Las Vegas, NV.
- Graziano, K. (2007). *Action Research in the K-12 Classroom*, Sierra Nevada College. Las Vegas, NV.
- Graziano, K. (2007). *Stereotypes, Threats, and Hateful Speech*. Panel presentation sponsored by Heritage Center, Nevada State College. Henderson, NV.

PROFESSIONAL ACTIVITIES

College and School

- Chair, Dean Search Committee, School of Education, Nevada State College (2011, 2012, 2013)
- Chair, Teacher Preparation Program Search Committees, Nevada State College
- Chair, Associate Vice Provost for Enrollment Management Search Committee, Nevada State College
- Chair, Promotion and Tenure Committee, Nevada State College
- Chair, Grade Appeal Committee, Nevada State College
- Co-Chair, Budget Committee, Nevada State College
- Co-Chair, Technology Committee, Nevada State College
- Co-Chair, Employee Annual Fund Steering Committee
- Faculty Senator, Nevada State College
- Parliamentarian, Faculty Senate, Nevada State College
- Advisor, Teachers of Principles Club (TOP), Nevada State College
- Member, Institutional Advisory Committee, Presidential Search Committee, Nevada State College
- Member, Vice Provost of Student Experiences Search Committee, Nevada State College
- Member, Associate Director--Student Financial Services and Scholarship Search Committee, Nevada State College
- Member, Instructional Designer/Technologist Search Committee, Nevada State College
- Member, SIS Manager Search Committee, Nevada State College
- Member, Student Speaker and National Anthem Singer Selection Committee, Nevada State College.
- Member, Financial Aid Advisor Search Committee, Nevada State College
- Member, Pre-education and Pre-nursing Advisor Search Committee, Nevada State College
- Member, Director of Institutional Research Search Committee, Nevada State College
- Member, SOE Education Technology Faculty Search Committee, Nevada State College
- Member, SOE Literacy Faculty Search Committee, Nevada State College
- Member (2011). Speech Pathology Search Committee. School of Education, Nevada State College
- Member, Faculty Senate Curriculum Committee, Nevada State College
- Member, Sabbatical and Leave Committee, Nevada State College
- Member, Campus Policy Committee, Nevada State College
- Member, Diversity, Equity, and Inclusion Committee, Nevada State College
- Member, College Promotion and Tenure Committee, Nevada State College
- Member, Grievance Committee, Nevada State College
- Member, Field Experience Committee, Nevada State College
- Member, Nominations and Elections Committee, Nevada State College
- Member, Web Advisory Group, Nevada State College
- Member, Faculty Advisory Council, Nevada State College
- Member, iTeach Award Committee, Nevada State College
- Member, Heritage Faculty Fellowship Committee, Nevada State College
- Member, Diversity Coalition, Nevada State College
- Member, Communications Committee, Nevada State College

- Member, School of Nursing Reinstatement Committee. Nevada State College.
- Member, Scholarship Committee, Nevada State College
- Member, By-Laws Committee, Nevada State College
- Member, Commencement Committee, Nevada State College
- Member, Copyright Committee, Nevada State College
- Member, Library Advisory Board, Nevada State College
- Member, Admissions Review Committee, Nevada State College
- Member, CEP and Advising Retention Team, Nevada State College
- Member, Taskstream, Committee, Nevada State College
- Member, Grade Appeal Committee, Nevada State College
- Member, Part-Time Instructor, Professional Development Planning Committee, Nevada State College
- Member, SOE Conceptual Framework Committee, Nevada State College
- Member, SOE Strategic Planning Committee, Nevada State College
- Member, NSC Course Evaluation Committee, Nevada State College

EDUCATOR, LEARNING SYSTEMS TECHNOLOGIST AND CURRICULUM DESIGNER

“Preparing Future Teachers and Engaging Learners through Educational Technology”

Accomplished, hands-on educator and researcher advancing face-to-face, blended, and online teaching excellence through instructional technology. Champion of individual student learning styles and performance outcomes through personalized attention combined with Universal Design for Learning approaches. Persuasive communicator skilled in initiating and marketing new programs to increase student enrollment and retention. Dedicated mentor, teacher and course designer with consistently high student satisfaction ratings able to innovate and re-design learning materials for maximum effectiveness across blended, online and onsite learning formats and technologies.

**EDUCATIONAL MEDIA AND TECHNOLOGY ~ INTERNET APPLICATIONS IN EDUCATION ~ ONLINE TEACHING METHODOLOGIES
STUDENT DEVELOPMENT AND MENTORING ~ TECHNOLOGY LITERACY CREDENTIALS FOR TEACHERS
LIVE AND ONLINE CONFERENCE ORGANIZER ~ INNOVATIVE eCOURSE DESIGN**

TEACHING AND RESEARCH HIGHLIGHTS

- ***Nevada State College*** – Proposed, created, taught, and refined first-ever upper-division course in online teaching at any four-year college or university in Nevada. Utilized innovative team-teaching approach that raised online course design and instruction skills from emerging to proficient or exemplary level for 13 preservice and in-service teachers while achieving course evaluation ratings of 4.7 out of 5.0.
- ***The College of St. Scholastica*** – Increased faculty adoption of technology from Learning Management Systems (LMS) and Massively Open Online Course (MOOC) creation to podcasts and web conferencing that led to Huffington Post and peer-reviewed journal articles, conference presentations, and a podcast consistently rated in iTunes’ top 25 for higher education.
- ***14th Annual International Conference on Education*** – Authored article based on dissertation featuring research indicating value of Universal Design for Learning (UDL) approaches. Able to adapt and apply UDL checklist system for evaluating online course design.

TEACHING EXPERIENCE

NEVADA STATE COLLEGE (NSC) – *Henderson, Nevada*

2014 – Present

Assistant Professor of Education / Coordinator of Educational Technology Endorsement [NV Teaching License 103356]

Tenure track faculty member at dynamic blended, online and face-to-face educational institution with 30-40% online course offerings as Assistant Professor of Education. Serves as Coordinator of Educational Technology Endorsement for re-design and adaptation of coursework, facilitating both licensed and preservice teachers seeking advanced educational technology credentials through the Nevada Department of Education. Designs curricula, innovates and evaluates learning systems, and has proposed new programs alongside primary role teaching courses in educational technologies and online teaching methods to diverse student population with over 26% Hispanic background.

- Successfully proposed a brand new Minor in Educational Technology in support of college’s goals of increased student enrollment and retention.
- Inspired by a 6.2% annual growth rate and widespread adoption of online K-12 programs to propose, develop, and teach Online Teaching Methods course for K-12 teachers. Co-edited course textbook, *Online Teaching in K-12: Models, Methods, and Best Practices for Teachers and Administrators* and negotiated commercial publishing agreement to achieve national book distribution.
- Developed highly-effective teaching style utilizing webinars, apps, guest speakers, online/mobile devices, multi-media resource and adapted basic frameworks and learning theories (SAMR, TPACK, Bloom’s Taxonomy, and Constructivism) that allowed a broad range of students (including full time learners, visual learners, students with special needs, and those for whom English is a second language) to create, collaborate, present, and reflect.

SARAH E. BRYANS-BONGEY, ED.D.

THE COLLEGE OF ST. SCHOLASTICA (CSS) – *Duluth, Minnesota*

2004 – 2014

Instructor, School of Education / Academic Technology Coordinator

Academic Technology Coordinator at brick-and-mortar college with 50% online enrollment and offerings in the sciences, business, healthcare and education. Developed and conducted adjunct courses, designed learning activities, created and enhanced course syllabi, and hosted face-to-face meetings for blended courses. Mentored students on implementing 1:1 laptops, graded assignments, held face-to-face and virtual office hours, and hosted weekly meetings via web conferencing system. Served as advisor for seven graduate students throughout all phases of their capstone research projects.

- Managed the development of a Massively Open Online Course (MOOC), creating a free gateway into the College's nursing and science programs where 2300 students participated and that produced nine full-time enrolled students.
- Supported nursing faculty in their goal to include remote learners in face-to-face groups during day-long workshops. Utilized iPads and Face Time to allow all nursing students to participate in required trainings.
- Promoted success for all learning styles by applying Universal Design principles, including online scaffolds like web resources, multimedia content, options for participation and a range of collaborative assignments and activities that led to overall student satisfaction ratings of 4.7 out of 5.0 and feedback indicating reduced technology anxiety.
- Supported, encouraged, and demonstrated the best-practice use of various educational technologies in teaching and learning, including iPads, student response systems ("classroom clickers"), web-enhanced courses, web conferencing, and Google Docs, in addition to workshops in online and blended teaching and learning.

CLOQUET AND WRENSHALL SCHOOLS – *Minnesota*

2000 – 2003

Library Media Specialist [MN Teaching License 385495]

Library Media Specialist to run educational media program. Supervised Library Assistant, wrote newspaper column establishing and promoting community partnerships, evaluated and purchased books, provided reading advisory services to K-12 students, and taught lessons on information literacy, research, and computer skills.

- Coordinated \$87K Minnesota Department of Education grant, leading multi-school learning experiences and collaborative exchanges via technology that significantly increased educational quality and student participation.
- Established Pathfinder website in support of 5th grade state reports, integrating internet and print materials that led to research project for successful pursuit of Master's Degree in Educational Media and Technology.

MEMBERSHIPS, SPECIAL PROJECTS, INSTITUTIONAL AND COMMUNITY SERVICE

- ***The College of St. Scholastica*** – Lead Designer/Instructor (4-Week Online Professional Development Course for Online Instructors), and Project Director (Anatomy and Physiology MOOC).
- ***Nevada State College*** – Institutional Review Board, Curriculum, and Professional Development Committees.
- ***Memberships*** – American Library Association (ALA), American Association of School Librarians, International Society for Technology in Education (ISTE), Kappa Delta Pi, EDUCAUSE, INACOL, and WCET.
- ***Conferences*** – Conference Organizer (St. Scholastica Blackboard Spring Tour – a Live and Online Event Showcasing Dean/Faculty-nominated Online Courses, Food and Music), Faculty-led Technology Teaching Series.
- ***Other*** – Blended Learning Task Force (Clark County School District), Chair/Web Conferencing Selection Committee, Chair/Student Response System Selection Committee, and Mentor/Women in Technology.

EDUCATION AND ACADEMIC ACHIEVEMENT

UNIVERSITY OF MINNESOTA – *Duluth, Minnesota*

- ***Doctor of Education, Teaching and Learning (2012)***

(Dissertation: Evaluating Learning Management System-Facilitated Delivery of Universal Design for Learning in Post-Secondary Education)

THE COLLEGE OF ST. SCHOLASTICA – *Duluth, Minnesota*

- ***Masters in Education – Educational Media and Technology (2001)***
 - ***BACHELOR OF ARTS, ENGLISH/TEACHING (2000)***
-

SARAH E. BRYANS-BONGEY, ED.D.

COURSES TAUGHT

NEVADA STATE COLLEGE (NSC) – Henderson, Nevada

2014 – Present

- **EDU 214-001:** *Preparing Teachers to Use Technology* (face-to-face)
- **EDU 214-O1:** *Preparing Teachers to Use Technology* (online)
- **EDUC 399-HO1:** *Foundations of Educational Technology* (blended)
- **EDUC 409-HO1:** *Technology Applications in Education* (blended)
- **EDUC 416-O1:** *Internet Applications in Education* (online)
- **EDUC 417-HO1:** *Technology and Literacy* (blended)
- **EDUC 430-O1:** *Online Teaching Methods* (online)

Other:

- Proposed, developed, and taught **EDUC 430:** *Online Teaching Methods for K-12 Teachers*.

THE COLLEGE OF ST. SCHOLASTICA (NSC) – Duluth, Minnesota

2004 – 2014

- **EDU 6470:** *Capstone – Online Teaching Certificate* (online)
- **EDU 6445:** *Online Teaching Methods* (online)
- **EDU 6440:** *Using Digital Media in the Classroom* (online)
- **EDU 6370:** *Universal Design for Learning* (online)
- **EDU 6210:** *The Highly Effective Instructor* (online)
- **EDU 6190:** *Using Data to Improve Student Learning* (blended, capstone)
- **EDU 6180:** *Understanding and Evaluating Educational Research* (blended)
- **EDM 4232:** *Educational Media Leadership* (face-to-face)

APPENDIX B - RESOURCE MATERIALS

Materials include assessments, treatment manuals and therapeutic materials. The resource list identifies more than 300 items available to students and faculty for classroom activities and practicum. Items are available for check out by students, faculty and clinical educators.

Nevada State College
School of Education Teaching and Learning Center
SPEECH-LANGUAGE PATHOLOGY RESOURCES

ITEM	AUTHOR/PUBLISHER	DESCRIPTION
Avery articulation cards, set III [activity card]/ by Erica Avery Imaginart Communication Products	Avery, Erica	4 x 6 cards feature upbeat and lively illustrations of people, objects, and animals to captivate kids... The cards are ideal for phonological and traditional articulation methods. Includes a manual offering motivating and creative games. Plastic file box organizer. Suitable for preschool and elementary children
The voice and voice therapy [by] Daniel R. Boone	Boone, Daniel R	Bibliography: p. 224-233;"Speech pathology: Fluency"
Yummy things to eat	Bowers, Linda	kits
Things to ride	Bowers, Linda	kits
Places	Bowers, Linda	kits
Things people do	Bowers, Linda	kits
More yummy things to eat	Bowers, Linda	kits
Words with equal emphasis	Bowers, Linda	kits
Creepy, crawly things	Bowers, Linda	kits
Animals	Bowers, Linda	kits
Social language development test : Elementary [kit]	Linda Bowers, Rosemary Huisigh, Carolyn LoGiudice	Ages 6.0-11.11;"Grades 1-6"
Social language development test : Adolescent [kit]	Linda Bowers, Rosemary Huisigh, Carolyn LoGiudice	Ages 12.0-17.11;"Grades 7-12"
Comprehensive assessment of spoken language [kit]	Carrow-Woolfolk, Elizabeth	Core battery takes about 20-30 minutes for examinees aged 3 through 5, and about 45 minutes for older examinees;"Ages 3-6, 7-21";"Oversized"
Comprehensive assessment of spoken language [kit]	Carrow-Woolfolk, Elizabeth	Core battery takes about 20-30 minutes for examinees aged 3 through 5, and about 45 minutes for older examinees;"Ages 3-6, 7-21";"Oversized"
Comprehensive assessment of spoken language [kit]	Carrow-Woolfolk, Elizabeth	Core battery takes about 20-30 minutes for examinees aged 3 through 5, and about 45 minutes for older examinees;"Ages 3-6, 7-21";"Oversized"
Focus on fluency [kit]	Chmela, Kristin A.	FCF-99 --Container;"Grades 2-12";"Ages 7 and up";"Oversize"
Structured photographic articulation test II (SPAT-D 2) featuring Dudsberry [kit]: <u>articulation and phonological assessment</u>	Janet I. Dawson, Patricia J. Tattersall	Story book has title: The life and times of Dudsberry;"Speech pathology: Articulation/phonology"
Structured photographic articulation test II (SPAT-D 2) featuring Dudsberry [computer file] : analysis software 4	Janet I. Dawson, Patricia J. Tattersall	Speech pathology: Articulation/phonology
Structured photographic articulation test II (SPAT-D 2) featuring Dudsberry [computer file] : analysis software	Janet I. Dawson, Patricia J. Tattersall	Speech pathology: Articulation/phonology
Open your eyes : deaf studies talking / H-Dirksen L. Bauman, editor	Deaf Studies Think Tank (2002 : Gallaudet University)	This book was born out of the Deaf Studies Think Tank, a three-day symposium in the summer of 2002 --Pref;"Includes bibliographical references and index"
The handbook for evidence-based practice in communication disorders / by Christine A. Dollaghan	Dollaghan, Christine A	Includes bibliographical references (p. 139-149) and index;"Speech pathology: Language"
Beyond strategies [videorecording] : book sharing the deaf way : a DVD for early childhood teachers, child care providers, and future teachers serving young deaf children / by Lynne Erting	Erting, Lynne	DVD;"In American Sign Language with optional captioning and spoken English voiceover"
Here's how to treat childhood apraxia of speech / Margaret A. Fish	Fish, Margaret A., 1959-	Includes bibliographical references and index;"Speech pathology: Articulation/phonology"
Bombardment bonanza! : 114 reproducible auditory bombardment lists for phonology practice / written by Beverly Foster and Howard Gold illustrated by Chuck Hart.	Foster, Beverly	Bk-237 ;"Speech pathology: Aural Rehabilitation/Audiology"
Bag o games [game] / Donna Tabacchi Gamble	Gamble, Donna Tabacch	Game cards in drawstring bag;"Each of the fourteen units in this bag game has activity sheets which develop a variety of language arts skills, and can be used as a competitive game, for peer tutoring, or for conversation practice";"Ages 4-10"

Test of childhood stuttering [kit]	Ronald B. Gillam, Kenneth J. Logan, Nils A. Pearson	Manual includes bibliographical references (p. 105-109);"Ages 4-12";"Testing time: 20 30 minutes"
Test of narrative language [kit]	Ronald B. Gillam, Nils A. Pearson	Ages 5-11;"Testing time 15-20 min."
Test of narrative language [kit]	Ronald B. Gillam, Nils A. Pearson	Ages 5-11;"Testing time 15-20 min."
Pragmatic language skills inventory [kit]	James E. Gilliam, Lynda Miller	Pragmatic language is defined as the system of rules designed to ensure that language use is interpersonally appropriate and that it is effective in ensuring that the speaker's or author's intent is understood --Examiner's manual, p. 1;"Includes bibliographical references (examiner's manual, p.49-53);"Ages 5-0 to 12-11";"Testing time: 5-10 minutes"
Goldman Fristoe 2 test of articulation [kit]	Ronald Goldman, Macalynne Fristoe	Includes bibliographical references (manual p. 59-60)
Goldman Fristoe 2 test of articulation [kit]	Ronald Goldman, Macalynne Fristoe	Includes bibliographical references (manual p. 59-60)
Goldman-Fristoe-Woodcock test of auditory discrimination [kit]	Ronald Goldman, Macalynne Fristoe, Richard W. Woodcock	3 years, 8 monthsΓÇø70+;"Administration time: 10-15 minutes"
Goldman Fristoe 2 test of articulation: manual	Ronald Goldman, Macalynne Fristoe	Includes bibliographical references (manual p. 59-60);"Speech pathology: Articulation and phonology"
Word flips : for learning intelligible production of speech /edited by Dale Ducworth illustrated by Tony Mitchell	Granger, Rhonda	Spiral bound on board pages;" BK-318 --Cover"
Snooky Snail goes to work [game]: fluency cards	Gustafson, Monica	CRD-22.;"kits"
Snooky Snail's fluency game boards [game]/ illustrated by Rick Rowland, Tony Mitchell, and Julie Bunner	Gustafson, Monica	GB-84.;"Preschool through second grade";"kits"
Test of language development. Intermediate [kit]	Donald D. Hammill, Phyllis L. Newcomer	Title from container;"Examiner's manual includes bibliographical references (pp. 71-75);"Testing time, approximately 1 hour";"Ages 8-12"
Hegde's PocketGuide to treatment in speech-language pathology	Hegde, M. N. (Mahabalagiri N.), 1941-	Companion v. to: Hegde's PocketGuide to assessment in speech-language pathology / M.N. Hegde. 3rd ed. c2008;"Includes bibliographical references"
Hodson Assessment of phonological patterns [kit]	Hodson, Barbara Williams, 1937-	Oversize;"Examiner's manual includes bibliographical references: p. 53-54";"Oversize";"Earlier edition: APP-R, the assessment of phonological processes, 1986";"Testing Time: 15-20 minutes (comprehensive) and 2-5 minutes (screening)";"Ages 2 and up"
Hodson Assessment of phonological patterns [kit]	Hodson, Barbara Williams, 1937-	Oversize;"Examiner's manual includes bibliographical references: p. 53-54";"Oversize";"Earlier edition: APP-R, the assessment of phonological processes, 1986";"Testing Time: 15-20 minutes (comprehensive) and 2-5 minutes (screening)";"Ages 2 and up"
Hodson Assessment of phonological patterns [kit]	Hodson, Barbara Williams, 1937-	Oversize;"Examiner's manual includes bibliographical references: p. 53-54";"Oversize";"Earlier edition: APP-R, the assessment of phonological processes, 1986";"Testing Time: 15-20 minutes (comprehensive) and 2-5 minutes (screening)";"Ages 2 and up"
Test of early language development [kit]	Wayne P. Hresko, D. Kim Reid, Donald D. Hammill	Oversized;"Ages 2-7"
Language, play by play [game] : a sporting approach to language	Karen L. Jenkins, Judy Y. Steele	Ages: 8 through 14. Interest level: 3rd grade through adult;"Skill area: Language, Vocabulary";"Speech Pathology"
Kaufman speech to language protocol [videorecording]	Kaufman, Nancy R	Speech pathology: Articulation/phonology
Kaufman speech praxis test for children [kit]	Kaufman, Nancy R.	Includes bibliographical references (Psychometric properties and normative tables, p. 69-70);"Testing time: 5-15 min"
Kaufman speech to language protocol : treatment kit 1	Kaufman, Nancy R.	Includes: Noun and verb pictures arranged from simple to complex consonant and vowel patterns -- a suggested hierarchy of the highest to lowest acceptable word approximations on the back of each picture -- a treatment manual for kits 1 & 2, describing the Kaufman Speech to Language Protocol approach

The Kaufman speech praxis workout book : treatment materials & a home program for childhood apraxia of speech : give your child a fun and functional verbal-motor workout for KSPT kit 1 word patterns	Kaufman, Nancy R.	Speech pathology: Articulation/phonology;"The Kaufman speech praxis treatment approach -- Before beginning the workouts -- Treatment tips for establishing first words vocabulary -- The Mutt family -- Word approximations -- Vowels -- Hand signal cues for vowels -- Optional workout for vowels -- Hand signal cues for simple consonants -- Other cueing techniques -- Workout #1 CVCV reduplication -- Workout #2 CV consonant vowel -- Workout #3 same initial consonant pivot phrases with CV -- Workout #4 pivot phrase open -- Workout #5 noun-verb-object naming function -- Workout #6 I want pivot phrases to request objects -- Workout #7 I want to verb to request actions -- Workout #8 final consonant inclusion of /p,t,k/ -- Workout #9 simple bisyllabics plus VC -- Workout #10 simple bisyllabic pivot word phrases -- Workout #11 simple bisyllabics (CVCV) plus CVC -- Workout #12 naming action with noun-verb-object -- Workout #13 noun-verb-object sequence stories -- Workout #14 present progressive structure -- Workout #15 short stories -- Workout #16 Scripting functional language."
Artic shuffle playing cards: L [activity card]/ developed by Tobie Nan Kaufman Linguisystems	Kaufman, Tobie Nan / Linguisystems	Sounds are in initial and final positions;" Each card has a picture representing the target word. Your students can use the cards to practice their articulation skills in words, sentences, and conversation while playing their favorite card games. Because the cards have traditional playing card symbols in the corners, just follow the rules of the game you choose. -- from instruction card";"kits"
Artic shuffle playing cards: P/B/M [activity card]	Kaufman, Tobie Nan / Linguisystems	Sounds are in initial and final positions;" Each card has a picture representing the target word. Your students can use the cards to practice their articulation skills in words, sentences, and conversation while playing their favorite card games.
